RUSSIANS ARE
REBUKED FOR
ABUSE OF U. S.BYRNES CALLS TWO
SENATE LEADERS
BACK TO PARIS

BY LOUIS NEVIN
Paris, Aug. 15. (AP)—Secretary of State Byrnes rebuked Russia today for "repeated abuse and misrepresentation" of the United States in the peace conference and let it be known that he had summoned Senators Tom Connally (D-Tex.) and Arthur Vandenberg (R-Mich.) back to Paris to aid him.

The two Senate leaders had sat beside Byrnes through two sessions of the Paris foreign ministers council which first considered the treaty drafts now before the conference. They gave Byrnes a concrete expression of national solidarity in America's foreign policy—a fact which has impressed the Russians.

No Apologies To Make
Byrnes also had intended to ask the senators to come back to Paris in anticipation of the holding of sessions of the big four foreign ministers concurrent with the peace conference. There was no indication that the foreign ministers yet had decided to hold such concurrent sessions. But if they do, having Connally and Vandenberg here would facilitate the actual business of completing the treaties.

In his speech aimed at Russia, Byrnes declared that the United States "has no apology to make for the principles of justice, equality and freedom" it sought for the peace treaties.

Byrnes won immediate support from Britain's A. V. Alexander, who declared "The words of the first delegate of the United States are in full accord with the sentiments of Great Britain."

Aid To Soviets Cited
Turning his remarks directly at the Soviet Union, Byrnes said that while the United States has no objection to Russia vigorously presenting its viewpoint on unsettled issues to the peace conference, "we do object to a misrepresentation of our position and our motives."

"We do object to accusations being made against the Italian government because in its opening statement it did not on all issues associate itself with the Soviet point of view."

"We do object to the Soviet government giving the impression to the conference that other ex-enemy states are more democratic than Italy because they have harmonized their views with the Soviet Union."

Byrnes said he wanted to reply to a Soviet reference to "great powers which have enriched themselves during the war."

"What great power enriched itself during the war?" Byrnes asked. "I know of none. I hope that the Soviet representative was not referring to America, which came so unhesitatingly to the support of the Soviet Union when it was in great peril."

He said that \$11,000,000,000 went to Russia under the lend-lease program, and that American expenditures during the war amounted to \$400,000,000,000.

"That represents American labor," Byrnes said, "American human and material resources. That money was borrowed from the American people. For years to come they must work to pay off this debt. For those expenditures America has received and asked for no recompense other than the freedom she fought to secure for herself and for all mankind."

Vishinsky replied to Byrnes' remarks on reparations by saying "One of the reasons for the diffi-

COST OF LIVING
RAPPED BY CIONew Pay Demands Soon
Unless Rise Of Food
Costs Is Checked

BY NORMAN WALKER

Washington, Aug. 15. (AP)—The CIO demanded today that the government raise wage standards under its stabilization program and hinted of a new round of wage demands unless the rise of living costs is checked.

Philip Murray, CIO president, again called on President Truman to arrange a labor-management conference to consider pay boosts for labor to frame "adequate guarantees for a stabilized national economy."

Murray warned in a policy statement presented to top CIO national and regional leaders and adopted by them that "labor cannot continue to participate in a stabilization program in which wages are rolled back while, at the same time, increases in the cost of living become a daily occurrence."

Specifically the CIO, at Murray's call, adopted a platform favoring control of prices of dairy products, meat, grains and other food items and a return of subsidies.

AFL President William Green turned thumbs down on Murray's conference idea. He told reporters in Chicago "such a conference would not be productive of much results in labor relations" based on experience at the labor-management conference last winter.

Murray told the CIO meeting that the CIO was confining its anti-inflation battle "for the time being" to efforts to beat back prices to their levels of earlier this year.

Loafing Dispute
At Chrysler Puts
4,500 On Idle List

Detroit, Aug. 15. (AP)—An estimated 4,500 workers were laid off today at the Chrysler Corporation's Kew-Forest body and Jefferson plants as the result of a dispute involving 15 men in a Kew-Forest plant department.

Spokesmen for United Automobile Workers (CIO) Local 7 declined to comment, but a corporation statement said the strikers left their jobs in protest after an employee was given a one-day reprimand for "loafing."

Meanwhile, UAW-CIO President Walter P. Reuther said his union was prepared to begin federal court action in behalf of veterans claiming vacation pay from General Motors corporation.

The issue set off a demonstration yesterday of 200 veterans at three of the corporation's Pontiac, Mich., plants employing 20,000 workers, many of whom refused to cross the veterans' picket lines.

Reuther denied the UAW played a role in the demonstration, saying the union's executive board had voted down the proposal when informed of it.

Jet Plane Travels
9 Miles A Minute

Boston, Aug. 15. (AP)—An army P-80 jet-propelled pursuit plane blazed from New York City to Boston today in 21 minutes and 51 seconds, averaging nine miles a minute for the slightly more than 200 mile trip.

The speedy craft took off from Mitchell Field, N. Y., at 1:01 p. m. (CDT) and landed at Bedford airport, in the vicinity of Concord at 1:28 p. m. (CDT). Total flight time was 27 minutes. However, the plane was officially timed from the moment it roared past New York's Empire State building to the moment it passed the Customs Tower in Boston.

Rains Soak Midwest;
Flood Damage Heavy

BY THE ASSOCIATED PRESS
Heavy rains soaked wide areas of the Midwest yesterday, washing out railroad tracks and flooding factories, stores and homes at a loss of hundreds of thousands of dollars.

The weather bureau said the heavy shower area extended from eastern Kansas to southern Indiana and that conditions were "favorable" for occasional showers during the next three days in the "little drought" area of northern Illinois, southern Wisconsin and northern Indiana.

A total of 7.20 inches of rain has fallen this week in Clinton, Mo.; Topeka, Kas., recorded a 5.59 inch fall in 12 hours; 3.29 inches has fallen in the last 72 hours at Springfield, Ill., and St. Louis had 3.49 inches in the last 24 hours.

The rainfall was general in Kansas, Missouri, northern Minnesota, southeastern Iowa, south and western Illinois and southern Indiana.

Southern Illinois was hard hit by the rain early today, with four inches falling at Mt. Vernon. The water flooded a power plant of the Mt. Vernon Car Manufacturing company and the plant, employing 1,200, was shut down until Monday. At least four railroad washouts were reported.

Police-manned motor boats rescued flood stranded residents in Belleville, Ill., and downtown stores were flooded at Centralia, Ill.

Roy Fyazier, a principal grower-wholesaler in southern Illinois, said the peach crop was mostly in and that the only damage from the rain was "a half day setback in picking."

ROOSEVELT CAR
CRASH DROPPEDFour Persons Injured
In 'Doze' Collision;
No Charges Filed

Yonkers, N. Y., Aug. 15. (AP)—Westchester Parkway police said today no charges would be filed in connection with the three-way car crash on Saw Mill River Parkway yesterday involving an automobile driven by Mrs. Eleanor Roosevelt.

Four persons were injured in the collision which occurred, police said, after Mrs. Roosevelt dozed at the wheel, permitting her sedan to veer into the path of oncoming traffic.

Mrs. Roosevelt's maid, Mrs. Gertrude Jones, and a passenger in one of the other cars, Thomas E. Dowdell of Brooklyn, remained in St. John's Riverside hospital with cuts and bruises.

The other victims, Albert Brooks of Brooklyn and Mrs. Arlene Rose of Ossining, went home after receiving first aid.

Mrs. Roosevelt was reported resting in her Greenwich village apartment in New York City. Aside from a severe jolting, she suffered only "a couple of bumps on the head," her secretary, Miss Malvina Thompson, said.

SPLIT REJECTED
FOR HOLY LANDUnited States Refuses
To Take Part In
British Plan

BY TOM WILLIAMS
London, Aug. 15. (AP)—Authoritative government sources said today the United States had refused to participate in the plan for partitioning Palestine, thus forcing Britain to seek an alternative scheme for solving the explosive Holy Land issue.

These informants said the United States advised Britain that as the mandatory power for Palestine she should go ahead with any action she deems necessary under the circumstances.

In Jerusalem new bomb threats forced brief evacuation of two key Jerusalem buildings and temporarily disrupted Palestine's communications today while the British army stepped up its alert against the possibility of a Jewish general revolt urged by the underground Irgun Zvai Leumi.

Tension increased further as a 200-ton schooner carrying more than 800 illegal Jewish immigrants arrived at Haifa Harbor. Haifa police said they feared a possible mob attempt to storm the docks to free refugees aboard still another ship who are expected to be deported.

Lansing Men Held
In Slot Machine
Racket Sentenced

Lansing, Aug. 15. (AP)—Prison sentences of four to five and three to five years respectively were meted out today to Doris T. Feldman and Joseph Monte Franks, Lansing residents convicted of a slot machine protection conspiracy.

In sentencing the two, Circuit Judge Charles H. Hayden declared "the seriousness of this charge is that it undermines the whole fabric of government."

Both were ordered freed on \$10,000 bail pending determination of an appeal to the state supreme court.

Feldman and Franks were indicted with Laurence A. Lyon, former superintendent of the state police uniform division, by the Ingham County grand jury. Lyon pleaded guilty to the charges but has not yet been sentenced. He is serving a 60-day term in the Ingham county jail for contempt of the grand jury.

Feldman and Franks were convicted July 10, the former by Judge Hayden and the latter by a jury in concurrent trials.

Polio Death Toll
Now 10 In Detroit

Detroit, Aug. 15. (AP)—As Detroit's death toll from infantile paralysis rose to 10, the board of health called a meeting Friday to decide whether to defer the scheduled Sept. 4 opening of public schools.

New cases reported to the board of health raised the total afflicted thus far this year to 98, 12 of which cases came to light this week.

Health officers from all schools were asked to meet with the board to discuss the polio situation.

Hancock Resident
Made Member Of
Liquor Commission

Lansing, Aug. 15. (AP)—Governor Kelly today appointed J. A. Pearce of Hancock to the state liquor control commission, and indicated Commissioner Felix H. H. Flynn of Cadillac, as his choice to succeed John P. Aaron as commission chairman.

Aaron resigned today to become executive secretary of the National Alcoholic Beverage Control Association with offices in Detroit.

The selection of a chairman rests with the three commission members.

Pearce, 51, a former sheriff and supervisor of Houghton county and Hancock alderman, will serve until the end of this year when a new governor may replace him.

He was one of Kelly's appointments to the as yet unorganized board of hearing examiners for the commission which the state Senate would not confirm at its recent special session.

Many Veterans Fail
To Look For Jobs,
Collect \$20 Weekly

Washington, Aug. 15. (AP)—Failure of "a certain number" of veterans to seek jobs while collecting unemployment compensation jeopardized the success of the program, Gen. Omar N. Bradley said today.

The Veterans Administration told a news conference on the first anniversary of its taking office that some ex-service men are not seriously seeking work and are satisfied to live on their readjustment allowances as long as possible.

Under the G. I. bill, a veteran may collect \$20 a week for a maximum of 52 weeks while unemployed.

Bradley said the number not seeking jobs was a small percentage of all veterans, but that these had started a "general discussion you hear in many places."

He called the readjustment allowances "very worthwhile" and expressed the hope the abuses by a few would not lead to "somebody taking action," presumably Congress.

Man With 6 Wives
Gets Prison Term

New York, Aug. 15. (AP)—Alexander Arlinsky, described by federal authorities as a man with 37 aliases and six wives, drew a six-year prison term today on his guilty plea to a charge of impersonating an FBI agent in Boston in 1940.

The 41-year-old Lowell, Mass., resident was arrested in New York City last July 24.

Assistant U. S. Attorney Joseph J. Verdichio said Arlinsky had been the object of a six-year search by federal and state authorities who knew him as "one of America's most notorious confidence men."

Counterfeit Ring
Found In Germany

Frankfurt, Germany, Aug. 15. (AP)—U. S. Army criminal investigation agents said tonight they had arrested three American civilians and 22 Germans on suspicion of being ringleaders of a Europe-wide counterfeit ring.

The agents said the ring had been smashed and that "further arrests are possible soon."

UNION CLAIMS
40 SHIPS TIED
UP BY STRIKENEGOTIATIONS ARE
ADJOURNED IN
WASHINGTON

Cleveland, Aug. 15. (AP)—The Lake Carriers' Association said tonight that only seven of the 816 vessels operated by its member companies were halted on the first day of the CIO National Maritime Union's strike on the Great Lakes.

There are about 400 American cargo ships operating on the lakes. NMU President Joseph Curran said earlier that 40 vessels were strikebound on the first day of the walkout, called to gain a shorter work week and other concessions. That would mean about 10 per cent of the American flag ships have been halted.

Curran told reporters it would take a week or 10 days to shut down lake shipping completely.

His claim of 40 strikebound ships—25 unionized and 15 unorganized—was hard to compare with the statement of the Lake Carriers' Association since that organization does not represent tankers and some other ships.

Tankers Idle
Meantime, concerning oil tankers, a spokesman for a tanker firm predicted the CIO strike would tie up all of the approximately 35 American oil tankers on the lakes within two days.

The prediction was made by Otto Wanek, assistant manager of Cleveland Tankers, Inc., which operates six oil carriers.

Wanek claimed the union had started its strike against the tankers before a "cooling off" period had ended. Strike notices were filed against the tanker companies on July 24, and Wanek said the strike was not due until August 23.

Curran meanwhile prepared to set up strike headquarters in Detroit, moving most of the national officers from the temporary headquarters here.

Curran and several top union officials left temporary strike headquarters tonight for the move to Detroit, planning to fly to the Auto City. Weather delayed the plane's take-off.

The NMU president said the union had reverted to its original demands.

In Chicago, the AFL Seafarers International Union, claiming to represent "by far the majority of union seamen on the Great Lakes," announced today it would honor picket lines at vessels under CIO contract but would "continue to sail SUO contracted ships."

In Washington, the last of the government sponsored negotiations looking toward settlement of the Great Lakes shipping dispute were adjourned indefinitely today.

Demands Modified
The government conciliators who had been striving to keep negotiations alive between the union and 17 Great Lakes carriers announced the indefinite calling off of further conferences.

"The union indicated its willingness to avert a strike by modifying its demands four times," said Curran, "but not once did we receive a counter proposal from the operators."

Originally the union said the principal issue was reduction of the work week from 56 to 40 hours, but during negotiations in

Starr Takes Over
Federal Bench To
Succeed Raymond

Grand Rapids, Mich., Aug. 15. (AP)—The presence of 180 leaders of the state's bench and bar, former Michigan State Supreme Court Justice Raymond W. Starr became the eighth judge of the Western Michigan federal district court. He is a Grand Rapids man.

Federal Judge Ernest A. O'Brien, of Detroit, administered the oath of office and Federal Judges Edward J. Moine, Arthur E. Lederle, Arthur A. Kocinski and Theodore Levin, all of Detroit, and Supreme Court Justice Leland W. Carr witnessed the ceremony.

Two hours earlier, Judge Starr resigned from the state supreme court and Governor Kelly immediately named Attorney-General John Dethmers, of Holland, to succeed him.

Twin Brothers Get
Prison For Murder;
One Put To Death

Montgomery, Ala., Aug. 15. (AP)—A death warrant wrote a grim finale tonight to the companionship of twin brothers who married twin sisters and later served prison terms together for the same murder.

William Edgar Alston, 41-year-old convicted wife-slayer, lost his appeal for clemency when Gov. Chauncey Sparks ordered him put to death in Kilby prison's electric chair shortly after midnight.

Only a few yards away in another cell was his brother, Julian, serving a life term for another killing.

Attorney General
Dethmers Named
To Supreme Court

Lansing, Aug. 15. (AP)—Attorney General John R. Dethmers today was named by Governor Kelly to the state supreme court bench succeeding former Associate Justice Raymond W. Starr, the new federal judge for the western district of Michigan.

The governor appointed Foss O. Eldred of Ionia, the deputy attorney general, to replace Dethmers as attorney general for the remainder of the year.

Dethmers, 43, has been one of the leading "anti-boss" Republicans in the state since his election as Ottawa county prosecuting attorney in 1930. He was chairman of the Republican state central committee from 1942 to 1945 and was credited by many party leaders with rebuilding the organizational foundation of the party.

He directed the sensational investigation of conditions at the state prison of southern Michigan last summer which led to the removal of Harry H. Jackson as warden.

Dethmers was not renominated for attorney general at the Republican state convention in Detroit this summer when forces of Kim Sigler, Republican gubernatorial nominee, failed to return most of the administration incumbents.

Born in Plessis, Iowa, the new associate justice was graduated from Hope college and the University of Michigan and practiced law in Zeeland and Holland. A former president of the Prosecuting Attorneys' association of Michigan, he was chief assistant attorney general under former Attorney General Herbert J. Rushton in 1943 and 1944 and was elected attorney general in November, 1944.

FIRE DESTROYS

In Night Clothing At
Lincoln, Mich.

Lincoln, Mich., Aug. 15. (AP)—Fire destroyed the exclusive Lost Lake Woods Club early today, injuring a Detroit woman and forcing 120 guests to flee to safety in their night clothing.

Loss was estimated at \$100,000 by the state conservation department, not including the loss of personal belongings and clothing by guests.

Mrs. Russell P. Inness of 16545 Northlawn, Detroit, suffered internal and back injuries when she leaped from a second story window. At an Alpena, Mich., hospital, her condition was described as serious.

A night watchman, Ray Williams, said he first noticed flames near a men's rest room on the third floor of the frame and stucco building. The main lodge and a wing were destroyed.

Cabins and outbuildings escaped damage.

The club, with 1,500 members from Detroit and other down-state cities, is situated on a 9,000 acre tract six miles north of here near M-171.

The president will be accompanied by his personal friends George E. Allen, director of the Reconstruction Finance Corporation, and Ted Marks of Kansas City, and members of his White House staff.

Guided V-2 Rocket
Falls And Explodes
At Proving Grounds

White Sands, N. M., Aug. 15. (AP)—A German V-2 rocket fired by the army technicians crashed to earth and exploded with a fiery roar today at the White Sands Proving Grounds. There were no casualties.

Lt. Col. Harold R. Turner, White Sands commandant, said the rocket started weaving violently and changed directions three times before losing two tail fins at 20,000 feet, and personnel at the ground controls promptly shut off the fuel to take the missile out of the air.

The projectile crashed to earth approximately a mile and three-quarters north of the launching platform. Exploding fuel shot flames 1,000 feet in all directions.

NEW INCREASE
HITS WASHERS,
IRONS, RADIOSCEILINGS REVISED
BY LAW TO MEET
PROFITS MARGINS

Washington, Aug. 15. (AP)—Price increases estimated by an OPA official to cost the public "well over \$150,000,000 a year" were granted today on such articles as radios, stoves, washing machines, vacuum cleaners, toasters and irons.

OPA said the increases were required by the new price control law which specifies that profit margins must not be cut below levels of March 31, 1946.

Items affected are those on which dealers had been required to absorb part of price increases granted earlier to manufacturers.

The price agency itself announced only that the raises ranged from three to 12 per cent. The \$150,000,000 estimate was given by an official who would not be quoted by name, in response to a reporter's query on total cost.

Take Effect Soon
The increase takes effect as soon as dealers receive shipments tagged by the manufacturers with the new prices.

The average retail increases on 20 classes of consumer goods are:

On radios and electrical phonographs, three percent; electric stoves nine percent; gas stoves, five percent; small electrical appliances, toasters, electric irons, heaters, shavers, four percent; bicycles, 3.5 percent; box springs, 12 percent; ordinary household chinaware, seven percent; clocks and non-jewel watches six percent; coal, oil and woodstoves, five percent; dry batteries, eight percent.

Household aluminum cooking utensils, five percent; metal bed springs, four percent; metal cot and doublebed beds, three percent.

Metal office equipment, four percent; outboard motors, five percent; photographic equipment, such as cameras, small projectors and light meters, six percent.

Portable typewriters, five percent; vacuum cleaners, seven percent; washing machines, seven percent; and window shades, ten percent.

OPA said higher prices for refrigerators will be announced shortly.

Required by Law
Today's increases were granted under the new price control law provisions which prohibit OPA from cutting profit margins of wholesalers and retailers below their margins of last March 31.

OPA previously had granted increases in manufacturers' ceilings on the articles covered by today's action. At that time the agency required dealers to absorb some or all of the price hike granted to manufacturers.

Today's increases represent the amount dealers had been required to absorb since March 31, OPA said.

Commenting on today's action and on other recent price increases OPE Administrator Paul Porter said:

"There appears to be some misapprehension in the minds of the public that these increases are being granted at OPA's discretion, this is not the case. The public should understand that these increases are necessary to comply with the law and that we are required to take these actions within 30 days after the enactment of the law July 25."

Policy Unchanged
Porter said he wanted to emphasize the "OPA has not changed

COL. POLLOCK CITY MANAGER

Marquette Hires Former
Flint And Pontiac
Official

Marquette—Col. James R. Pollock, former city manager of Flint and Pontiac, and now on terminal leave after service with the U. S. Army Corps of Engineers as deputy engineer of the Sixth Service command, yesterday was named Marquette's first city manager at a special meeting of the commission.

Unable to take the post when it was offered to him last March, because of an unforeseen Army assignment with the War Assets Corporation, Col. Pollock yesterday accepted the position in a telephone conversation with Mayor James J. Beckman.

He will be paid an annual salary of \$7,500. The commission vote on his appointment was unanimous.

From the beginning, the Army engineer had been the No. 1 candidate for the post created by the commission April 22 when it changed the form of administration to the city manager system.

Marquette is the eleventh city in the Upper Peninsula to employ a city manager. The others are Ishpeming, Ironwood, Iron River, Crystal Falls, Stambaugh, Escanaba, Manistique, Kingsford, Gladstone and Sault Ste. Marie.

A graduate of the University of Michigan, holding a degree of bachelor of science in civil engineering, Col. Pollock has held a number of positions of responsibility as engineer and city administrator.

Surplus Property Broker Reticent, Cited For Contempt

By WILLIAM T. PEACOCK
Washington, Aug. 15 (AP)—Benjamin F. Fields, broker in surplus goods, was cited for contempt by the house surplus property investigating committee today for failure to produce records it deemed satisfactory on a \$12,936 deal in wire screening.

The committee adopted a formal finding that Fields "is willful and contemptuous" in "refusing to produce the books, records, etc., called for" by a subpoena. High Wase, Jr., committee counsel, was directed to dispatch the finding to house speaker Sam Rayburn.

Fields was not in the committee room when chairman Slaughter (D-Mo.) announced the finding.

The record Fields gave the committee was a single sheet of notebook paper listing a gross profit of \$4,442.50 on the deal and payments of \$1,480.93 to Glen Dies, \$1,480.93 to Joe Doe, \$400 to John Doe and \$100 for travel and miscellaneous expenses.

Camera Hobby Leads To Business

Winnipeg, Canada—(AP)—Winnipeg's only school of photography was the indirect result of a fight between a policeman and an unidentified lawbreaker about 10 years ago.

As the constable felled his victim with a smashing right, young Harry Provisor aimed his miniature camera and took action pictures. He sold the pictures to a newspaper, resold them to a magazine, and sold them again to the house organ of a camera manufacturer. He'd found his career.

After a spell as a photography instructor in the RCAF, Provisor opened his own school in Winnipeg. His 60 pupils have daytime jobs and attend classes at night.

UNION CLAIMS 40 SHIPS TIED UP BY STRIKE

(Continued from Page One)

Washington it had altered the figure to 44.

"We stand ready to negotiate at any time on this dispute but now we will negotiate only upon our original demands," he continued, declaring "we did not want a strike."

The national union will "press the Great Lakes strike to the limit of our union's resources, including a million dollar strike fund," said Curran.

Concerning the industrial effects of a prolonged interruption in lake traffic, ore, steel, coal and railroad officials predicted the most immediate effect would be on coal shipments.

The ore and coal exchange said coal shipments this season were running about 15 per cent under normal, at 21,922,000 gross tons.

Food Prices Jump 27 Per Cent Higher During Last Month

Washington, Aug. 15 (AP)—The Bureau of Labor Statistics reported today that food prices in wholesale markets were 27 per cent higher during the week ended August 10 than at the end of June.

The wholesale price index on August 10 was 127.1 per cent of the 1926 average, a rise of 1.7 per cent from the preceding week. This was 4.53 per cent higher than the corresponding week of 1937 and 32 per cent higher than the August, 1929, level.

The report did not say what part of the increase is due to termination of government subsidies.

The bureau said the index, which covers industrial products in addition to food, was 12.8 per cent higher than before temporary suspension of OPA controls July 1 and 20.5 per cent higher than at the end of the war one year ago.

The rise during the last week resulted mainly from higher prices for agricultural and industrial commodities, the bureau said.

Fight For Control Of Furniture Union Gives AFL Decision

Grand Rapids, Mich., Aug. 15 (AP)—AFL adherents today won the second round of their fight to oust 2,500 Grand Rapids furniture workers from a CIO to an AFL union.

Circuit Court Judge William B. Brown dismissed an injunction obtained Tuesday by representatives of the CIO Furniture Workers Union restraining the AFL faction from removing records for touching the bank account of Local 415 of the CIO union.

Morris Miller, leader of those favoring the change to the AFL International Upholsterers' Union, said the court decision "proved that the AFL union represents the members of Local 415."

Murder Is Charged In Fatal Fight At Ionia's Free Fair

Ionia, Mich., Aug. 15 (AP)—Chloris "Sonny" Howard, 35, of Tampa, Fla., was ordered bound over to November term of Ionia county circuit court following his arraignment before Justice of Peace William B. Heath today on a murder charge.

Howard, concessionaire at Ionia Free Fair last week, was charged with striking and killing Clare Frederick Hodge, 24, of Portland rural route. Hodge died of head injuries following alleged fist fight with Howard on crowded fair midway shortly after midnight Sunday. Both Howard and Hodge were veterans of the European war, both taking part in the Battle of the Bulge.

Howard is to be held in Ionia county jail without bond.

Submarines Survive Atomic Bombs Best, Scientist Declares

San Francisco, Aug. 15 (AP)—The man in the best position to know just what the atom bombs accomplished at Bikini offered the scientist's viewpoint today that the tests greatly enhanced the role of submarines in naval warfare.

The submarine targets, said Dr. R. A. Saylor, technical director of Bikini tests, withstood the bombs in far better shape than surface vessels and emerged with much less deadly radioactivity because they were water tight.

"The Sea Raven, which was submerged and which sank during the test (the underwater blast), had been raised and our men were able to enter it and stay inside for a considerable time," he said. He was interviewed as he paused here enroute to Washington where he will help complete a report from instrument findings.

In contrast, most of the surface ships still will not permit prolonged visits, and radioactivity throughout Bikini lagoon continues so prevalent that affected plant life can take its own pictures.

its policy of establishing ceiling prices based only on requirements of law or for bona fide supply reasons."

He added that OPA will follow the standards laid down by congress "in such a manner as to afford the maximum protection to the buying public that is possible under these standards."

Porter said OPA expects that today's increases will be the last in the consumer goods field, except for refrigerators.

OPA said under the new law no adjustments are needed for such items as furniture, floor coverings, lamps, and some types of bedding and luggage, since the agency has required no cost absorption on these articles.

OPA said also that another provision of the new law which prohibits any reduction in dealers' peacetime profit margins on re-conversion products—such as automobiles—is not applicable to the list of items given increases under the March 31 mark-up provision.

The Wisconsin Election

THE results of the Wisconsin primary election likely will be a subject for editorial comments in newspapers throughout the nation during the next few days.

Nomination of Gov. Walter S. Goodland by the Republicans carries much significance and reveals an encouraging trend in the political thinking of the people. Wisconsin voters overlooked the fact that Goodland is 84 years old and expressed their appreciation of his successful fight against gambling, his attacks on lobbyists in Madison and efforts to effect economies in state government.

Gov. Goodland, the octogenarian, has shown more vigor and courage in public life than state officials half his age. There were some observers who predicted his defeat by the popular Ralph Immler, for many years adjutant general of the state, because he offended various political interests, but the people demonstrated that they like someone who is not always playing politics.

Defeat of Robert M. LaFollette Jr. in his quest for the Republican nomination for United States senator by Circuit Judge Joseph R. McCarthy of Appleton, a former Marine Corps officer, may be regarded as an upset. Although LaFollette had deserted the Progressive party as a matter of political expediency and entered the Republican ranks, it was expected that the famous name would draw enough votes to assure him of victory. His defeat brings to an end, temporarily at least, the 45-year reign of the LaFollette political dynasty in Wisconsin.

There are probably many reasons for LaFollette's defeat. His isolationist attitude, doubtless, lost votes for him to an opponent who had seen active service in World War II. Progressives also may have turned against him for his desertion of their party. And then, there is the desire for change and the giving of a war veteran an opportunity to serve his country in public office.

The most satisfactory aspect of the Wisconsin election results, however, is that the people appear to be thinking for themselves and judging political candidates on their records.

Utilizing Aspen

THERE is as yet no shortage of aspen or popple in Upper Michigan, Wisconsin and Minnesota. Actually, there is a need for finding means of commercial utilization of this once-scorched "weed tree" for much of it is going to waste from over-maturity. For some years, aspen has been used extensively in the manufacture of excelsior, taking the place of scarce basswood, and during the war increased amounts of this so-called inferior species was utilized in the production of paper. The prospects are that more of it will be used in pulp-making in the future.

In Wisconsin and Minnesota, aspen is used as veneer cores, in the making of venetian blinds, matches and other wood products. Grand Rapids, Minn., one of the centers of aspen production, has been chosen as the site of the Minnesota forest research center provided for by federal appropriation. The Michigan College of Mining and Technology's forestry department also is conducting a study on aspen utilization. Out of it all may come new wood working plants that will furnish additional employment to inhabitants of forest communities in the Lake States region.

Model Traffic Ticket

A UNIQUE traffic law enforcement plan designed to save both drivers and police from a labyrinth of confusing regulations was activated recently in five Michigan cities according to the International City Managers' Association.

The new plan involving use of a standardized traffic violation ticket in Saginaw, Bay City, Jackson, Battle Creek and Kalamazoo is aimed at reduction of accidents by making violations and penalties for reckless driving uniform over a multi-city area.

Use of the plan in more Michigan cities is anticipated following the experimental period during which some changes in details may be expected. Out-of-town drivers will profit by knowing from experience at home what regulations and enforcement procedure to expect in other cities. The plan was devised by the Michigan police chiefs' association in cooperation with the state safety commission and other agencies.

Implementing the plan is a new traffic violation ticket listing six principal violations which have been found to account for more than 80 per cent of traffic accidents. These include speeding, improper passing and disobeying stop sign or light. Each violation has a hazard rating allowing numerical tabulation of the seriousness of any infraction.

Also rated are any conditions increasing seriousness of the violation such as slippery pavement, darkness and heavy traffic. If the numerical ratings of the violation and conditions under which it occurred total less than a certain figure, the ticket serves only as a written warning when the violation is a first offense. For two-time

violators and those involved in violations with higher numerical ratings, a court summons is issued automatically.

The written warning reported serves not only as means to increase police-driver contacts and thereby expedite motorists' education to traffic hazards, but also has a more profound effect on the violator's driving than verbal warnings which are not recorded accurately and for which no second-offense court summons is automatic.

The system is expected to boost traffic police morale by giving officers a decisive line of enforcement action and the assurance that such action is being uniformly dealt with by other officers. Police chiefs hope the new ticket will reduce the habitual reluctance of some officers to take any action in borderline cases for fear of incurring public disfavor.

Prices Advancing

PRICE ceiling increases of 10 to 13 cents a pound on coffee have been authorized by the Office of Price Administration. This is only one of the scores of price mark-ups the OPA has been allowing since it was reestablished by Congress.

OPA has been lifting price ceilings with such wild abandon during the last few weeks that it has become known as the Office of Price Advances.

Failure of Congress to extend OPA promptly upon its expiration date created a period of no price control that has had its deleterious effects. Then, the new measure that was enacted into law was riddled with amendments that have made price control only a shadow of its former self.

The cost of living is mounting every day. OPA no longer can stem the tide of rising prices. Its most important function from now on will be the issuance of paychecks to its employees.

Other Editorial Comments

ANOTHER UNION RESENTS REDS (Milwaukee Journal)

A group in the United Electrical, Radio and Machine Workers of America (CIO) has issued a call to arms to the rank and file. It urges them to rise up and by democratic action get rid of their officers of Communist tendencies.

This is an overdue effort which should find support within the union. The UE union has long had a strong and influential group of Communist leaders. Communist party line policies have frequently showed up in the union policy and publications.

Harry Bloch, UE international vice-president, who is leading the campaign against the Communists, is fully aware of the dangers. He says that the union has "reached a crisis in its affairs."

He wisely tells the union that it can either get rid of the Communist officers and return to the ranks of respectable CIO unions or "hurry along to its own destruction as a front for the American Communist party and its program."

The choice should not be hard for the UE rank and file, who are overwhelmingly good Americans and who believe in democracy and not in Communist dictatorship.

A JAP FIFTH COLUMN (Philadelphia Record)

After World War I, Japan made us a present—the Japanese beetle. Now in the wake of World War II, it has sent us another—the long-horned weevil.

This weevil is a pesky little fellow, only an eighth of an inch long. It ruins foliage, destroys vegetables and grain crops, even denudes trees and kills grass. Unlike the Jap beetle, it also invades houses to plague the inhabitants thereof.

Thirty years have passed since the Jap beetles arrived. It is a matter of dispute whether they are licked yet. As for the weevils, they've resisted all counterattacks.

Maybe the thing to do is put the job up to the Japs. There hasn't been much talk of reparations from Japan. But perhaps we ought to insist that the Japs send gangs over here to take their fifth column pests "back where they come from."

BUDGET RESPONSIBILITY (New York Times)

Responsibility for the increase in contemplated expenditures since last January, while of course shared by Congress, cannot in fairness be solely attributed to Congress by the President. For the main part of the increase his own responsibility is plain. It was very puzzling, therefore, for the President to say that the minor measures of budgetary control announced by him last week were "the maximum economies I have been able to secure by executive processes at the present time."

The main responsibility for the present budget lies, in fact, with the President. It is always possible for him to spend considerably less than Congress has authorized, and to veto measures for mandatory expenditures of which he disapproves.

According to an Ohio judge, many people who borrow never intend to pay back. They're the ones who also are borrowing trouble.

Take My Word For it . . . Frank Colby

A MATTER OF USAGE

From W. K. B. Manistowic: Give us a ruling on "raising" human beings. Raise, one man here insists, is used only in reference to animals. Let's have the thing cleared up once and for all.

Answer: Funk and Wagnalls sternly warn: "Raised should never be used of bringing human beings to maturity. It is a common misuse in the southern and western United States. Cattle are raised; human beings are brought up, or reared."

In my opinion, such a dictum is mere quibbling. There is nothing in the meaning or etymology of raise that would make the word inappropriate in connection with "raising" human beings to maturity. As a matter of fact, raise and rear are both

World Events Analyzed

BY MARQUIS CHILDS

Washington—Still another international conference is to open in the city of Copenhagen in early September. Instead of political boundaries and national rivalries, this conference will deal with a subject as old as mankind—food and hunger.

Childs

Forty-two member countries of the food and agriculture organization of the United Nations will send delegates to the Danish capital. They will have before them a proposal that is breathtaking in its boldness.

Sir John Boyd Orr, head of FAO, a pioneering Scotsman who knows the food habits of the peoples of the earth as a rancher knows his own cattle herds, is the author of the plan. It proposes a world food board to set minimum and maximum prices for the chief food commodities.

—SPECUATORS WORRIED—
Speculation would have a fund at its disposal to buy up surplus commodities when surpluses threatened to send the price down below the cost of production. Similarly, the board would hold surplus stocks and release them when prices began to skyrocket.

The object is to get food production up to the highest possible levels and keep it there. It is the ever-normal granary—the dream of Joseph in Egypt—applied not to a single nation but to the world.

Because of its daring, the plan has frightened the wits out of a great many solid citizens here and in London. Commodity dealers look on it with horror, since it would end speculation in commodities. Admittedly the Orr plan is vague in certain particulars. Conspicuously it omits to say where the money will come from to provide a revolving fund. That gives the smart boys a chance to say that Uncle Sam is to be tapped again.

Admittedly there are some big ifs in connection with the proposal, that would be natural, since man has never before tried to think in terms of getting more for hungry people everywhere to eat.

"The need for additional food," says the FAO in a report on the proposed food board, "is so great that, if human requirements could be translated into economic demands, there would be no question of surpluses of the basic foods."

That's an if of staggering dimensions. It poses the basic problem that the Copenhagen conference will consider. It is the essential problem of our time—how to distribute the vast outpouring of goods which modern science and technology can create.

Top policy-makers in Washington and London look skeptically on the Orr plan. The day after it was made public, there were inspired news stories saying that President Truman's cabinet had rejected it and that the United States delegate to Copenhagen would oppose it at the conference.

—WHAT WILL HAPPEN?—

That appears to be an over-simplification of what actually happened. The cabinet merely agreed to take the plan under consideration. Secretary of Agriculture Clinton Anderson, who has the viewpoint of the producer, would inevitably oppose it.

This is what seems likely to happen. The British and American delegates will go to Copenhagen agreed upon an alternate plan. They will argue that the Orr proposal is so far-reaching it could not possibly win acceptance by the member nations of FAO.

Therefore, without an alternate plan, the conference would merely bog down, with the "Have Not" nations arguing for Sir John's proposal and the "Have" nations opposed to it. That kind of stalemate might jeopardize the future of FAO.

If present plans are followed, Britain and the United States will propose formation of a commission to study the possibility of creating a world food board with extensive powers. Obviously, that would be a stupor.

The hungry nations would certainly cry out against it. They are faced with facts, not theories. UNRRA in Europe with foodstuffs has been made for various organizations to take over from UNRRA. But they have a meager and uncertain sound. For at least four years, and perhaps much longer, levels by food consumption in large areas will be far below those of 1939.

Sir John's concept of a world food board—an ever-normal granary stretching around the globe—may be too bold. But on the other hand, a commission to conduct still another study is too timid. Something more than that will be expected from the delegates who meet in Copenhagen.

from the Old Norse reisa, "to raise."

One may raise anything—crops, salaries, the rent, cattle, prices, objections, rumpuses. Masons are raised to the third or Master's degree. Many Catholics have been raised to sainthood. The night before his death Sir Walter Raleigh wrote in his Bible: "God shall raise me up, I trust!"

My assistant, Dr. Etain Shrdlu, has been reading over my shoulder (detestable habit!) and has just snorted tremendously in my ear, and loped off in high dudgeon to his cobwebby cubicle, growling, "... no reverence for sacred tradition—reductio ad absurdum—mumble-mumble-mumble!"

Nevertheless, to raise and to rear are as closely synonymous as two words can be, as most dictionaries will attest. Note this definition from Merriam Webster's: "Rear: To breed and raise; as to rear cattle." Also: "Raise: To cause to be—bred or propagated; to grow; as—to raise cattle."

Hence, to object to "raising" children is equally improper, since cattle also are reared. Double talk.

To raise children is an American idiom that is here to stay. However, I should not go to the extreme of the West Texas ranch woman who once told me: "I've raised six head of young 'uns, and I raised 'em right smart, too."

Now Comes the Granddaddy of All Knots

Good Morning!

By The Bugler

HE'S AN OBJECTOR—While World War II veterans in the majority enjoyed the entertainment arranged for them on Wednesday, they did not seem inclined (in the majority) to march in the parade.

Dunathan

As one veteran grumbled: "I'm a conscientious objector when it comes to that sort of thing." And so the parade had only a handful of WWII vets in its ranks, but those who were there were in uniform and looked fit and trim, somewhat in contrast to the expanding maturity of World War I vets—who looked as if they had been trimmed to fit in uniforms a little larger than those they were wearing. The general impression, however, was very good and a comparative glance along the rows of spectators revealed that war veterans seldom have those grossly opulent stomachs that afflict other folks. Or perhaps a war veteran with a stomach is automatically ruled out of parades.

Getting back to the World War II veteran who said that he objected to marching in parades—he stood comfortably watching his fellow heroes from the sidelines. Instead of full dress, he wore a slack suit and one of the biggest smiles on Ludington street.

UNDER THE HAMMER—Recent announcement that the light-house tender Hyacinth is to be sold by the government is followed by the additional information that other famous Great Lakes tenders are also on the "for sale" list. Included are the Amaranth, Marigold and Ossipee.

These four ships have a long history of service on the Great Lakes, first under the lighthouse service, later under the Coast Guard when the services were merged. They have serviced light-houses in the outer reaches of the lakes, have placed buoys and other navigation aids in busy channels and through the years they have earned a good reputation as sturdy vessels completely manned.

Now they are to be sold as surplus property. Some of them will probably come to an undignified end as floating bars, or in modest security as houseboats—which would be one way of solving the housing shortage.

STUFF LIKE THAT—Overheard on the street in front of the court house was the following conversation between a youngster and his older sister.

Youngster: "You know what's in that jail?"
Sister: "All kinds of murderers and stuff like that."
Youngster: "You mean people."
Sister: "Yeah—and guys, too."

WHAT HE LIKES—Home from the war, Bill Cary, son of Mrs. George L. Kiser of Bay Shore Road, has a job to do that is better than his fondest wartime hopes. There was no reconversion problem for him, and he stepped from the uniform of the army into that of a National Park Service ranger on Isle Royale.

He will be there only for the summer, but has already chalked up a considerable amount of pleasant experience along with his work. Finding keen enjoyment in the out-of-doors, Bill has observed and photographed moose—including a cow and calf and one elegant bull and a nest of blue heron with their young. Rare wild

INTO THE PAST

10 Years Ago—1936

With the aid of high humidity and light winds, 1,800 Civilian Conservation Corps enrollees seemed tonight to be winning their 10-day fight with forest fires on Isle Royale, the newest national park.

A magazine salesman, calling himself Harold Whitney, has swindled many local housewives as he peddled for a non-existent agency.

Shirley Nolden, Wells, submitted to an operation for the removal of tonsils at St. Francis hospital. Mr. and Mrs. Tom Dufour returned yesterday from a four-day trip to Chicago.

Mr. and Mrs. R. H. Doty and two children have returned from Milford, Ind., where they attended the funeral services of Mr. Doty's father, A. L. Doty.

20 Years Ago—1916
Mrs. Frank A. Madden of Indianapolis, Ind., formerly Miss Gertrude McCauley, has returned to her home after a visit at the home of her parents, Capt. and Mrs. Charles McCauley, South 15th street.

William Chepeck is in Chicago on business. Mrs. George Anderson has returned from a visit for two weeks at the home of relatives at Port Washington and Milwaukee.

Miss Esther Johnson and Miss Dagmar Finnean left last night for Chicago and Rock Island to visit with friends and relatives.

About 3,000 people are expected to attend the annual Chatham round-up at the state experimental farm tomorrow.

orchids on the remote island have been found and photographed by the young ranger. Isle Royale this week end is being formally dedicated as a national park, is one of the wildest and least frequented areas in the Middle West.

POPULAR FEATURE—One of the most popular features of the V-J Day celebration in Escanaba was the free plane rides offered by Wally Arntzen and his Pioneer Aviation flight school crew at Escanaba airport. All Wednesday afternoon and evening they took World War II vets on rides over the city, and during the parade period the pilots (most of whom are veterans themselves) put on demonstrations of precision and stunt flying that made local folks gasp.

Best-known of the nine pilots was Wally Arntzen, whose name has become a word synonymous with flying. Whenever a plane performed a particularly startling stunt—like flying upside down, rolling wing over wing, or even looping—some spectator was sure to say "That's Wally Arntzen."

Standing a few feet away, another spectator, looking at another plane doing equally admirable stunts, would tell his neighbor "That must be Arntzen." Every time a plane stunted it was Arntzen, and no one—particularly the kids—would believe that Wally wasn't in every plane.

QUICK WORK—Len Ward and Gerald DeGrand, who are operating the Pioneer Aviation flight school at Menominee, were in Escanaba for the celebration. Wally has promised that a similar aerial parade will be staged in Menominee this summer.

Ward and DeGrand tell the story of H. A. Arnum of the France Company of America in Escanaba, who flew to Menominee in his plane one day to test a jeep which he purchased there. Flying back to Escanaba he dispatched a driver to Menominee for the jeep, all on the same day.

Q. What life insurance company do I consult to have my National Service Life Insurance policy changed to an endowment policy?

A. The National Service Life Insurance policies are issued by the U. S. Government and have no connection with commercial life insurance. Contact your nearest Veterans Administration Office for information on proposed conversions. At present there are no provisions for changes to endowment plans of insurance, but there is a bill now pending in Congress to permit the issuance of such policies. Watch this newspaper for notice of such legislation.

Q. Is it necessary for Massachusetts veterans, who have already been issued a first bonus payment, to file again?

A. No, payments will be made over the original application. However, the veteran should notify the office at 15 Ashburton Place, Boston, Mass., of any change of address since the first payment.

Q. Did Mary Baker Eddy, founder of Christian Science, ever take medicine?

A. As a girl, and later as a young married woman, she experienced many serious illnesses, being stricken with paralysis. She took a great deal of medicine before she came under the influence of Quimby and his philosophy.

Q. Which branch of the armed forces is called the "Devil Dogs?"

A. The Marines. The nickname originated with the Germans in the first world war when they referred to the Marines by that name, because of their tenacity in battle.

Q. Did the post Edwin Markham use any other name?

A. He wrote first under his full name, Charles Edwin Markham, but later dropped the Charles.

Q. Should a baby as young as six months, sleep in a room alone?

A. Whenever possible the baby should have its own room. It is almost impossible to give it the quiet it should have in a room that must be used by others. The room be bright and sunny, and kept well ventilated.

Q. Has a rhinoceros ever been born in captivity in the United States?

A. Yes, one was born in the Brookfield Zoo in Chicago, in October 1941. It was estimated to weigh forty pounds at birth.

The Washington Merry-Go-Round

BY DREW PEARSON

Washington—Genial Judge Joseph C. Hutcheson of Texas is famous for his keen sense of humor and for having kidded his colleagues that their judicial opinions were prompted by "hunches." However, when

Pearson

he discussed British partitioning of Palestine in a secret session at the state department last week, Judge Hutcheson was dead serious. Also, he was vehement against the British.

Hutcheson and the Anglo-American Palestine commission which he headed, had recommended that Palestine be placed under the United Nations

and that 100,000 Jewish refugees be admitted from Germany immediately.

On the other hand, ex-assistant Secretary of State Henry Grady of San Francisco, President Truman's special representative on Palestine, sided with the British plan to split the holy land into Arab-Jewish zones. In Paris Grady was sold the British idea that war with Russia was imminent, that Palestine must be a British base.

So sparks flew last week when both sides were called together in the office of red-mustachioed acting Secretary of State Dean Acheson.

"We didn't come all the way back here to Washington to see this sellout," said Judge Hutcheson. "This is a clear-cut repudiation of the findings of our committee. It's a plan for the ghettoization of Palestine and we're unanimously against it."

Hutcheson went on to say that his group was in touch with its members in Britain and that the British commissioners also unanimously opposed cutting up Palestine.

—"NO SELLOUT"—GRADY—

Henry Grady, however, didn't like Hutcheson's charge that the British plan was a "sellout."

"After all," Grady replied, "we've just come from London where we talked this thing over with the foreign office. I think the plan is very reasonable."

"We were in London, too," shot back Hutcheson, "and we spent a lot more than one week investigating this problem. We spent three months at it. And what's more, we went to Palestine and traveled all over Europe investigating every phase of this matter."

Grady continued to protest, but was silenced by the big Texan.

"If you care to debate this thing," said the U. S. Circuit Judge, "I can find another forum on which to do it."

The threat of public discussion silenced Grady. However, acting Secretary Acheson picked up the ball, said the new British plan had its good points and asked Under Secretary of State William Phillips for his opinion.

"I'm afraid I can't go along with the department this time," Phillips replied. "I'd like to, but I can't. This plan is impossible. How long we continue to have our foreign policy the tail on the British foreign office kite?"

Acheson did not reply. But before the conference ended, he received one more merciless jab from sharp-tongued, quick-witted Bart Crum of San Francisco.

"Mr. Secretary," said Crum, calmly, "I have one question to ask you. You don't have to answer it if you don't want to. But I'd like to know if, after all you've seen and heard, do you have any faith whatsoever in any promises the British foreign office makes on any subject at any time?"

NOTE 1—The British oppose the Anglo-American commission's plan to put Palestine under the United Nations for two reasons: 1. Britain doesn't want its past unsavory record as colonial administrator exposed and debated before the U. N.; 2. Britain doesn't want Russia to emerge as the champion of the Arabs.

Judge Hutcheson's commission disagrees on the later point. In the Near East it interviewed wealthy Arab leaders who feared the Russians far more than the Jews.

Note 2—In Paris, Prime Minister Attlee informed Secretary of State Byrnes that the Russians were ready to start aggressive action against Turkey. He argued that Palestine must be kept by the British in case of Russian trouble.

—ARMY'S TOUGH PROBLEM—

One tough problem facing the U. S. Army is the tendency of some soldiers to marry German women. General McNarney flatly rules this out but with the men so far from home the problem persists.

In Austria, which is considered a Hitler victim rather than an enemy nation, G. I.'s are permitted to marry Austrian women if they get permission from their chaplain. Chaplain Clayborn Landers, a young Baptist from Arkansas who works hard at his trade, informed me that a good many boys have applied to him for permission to marry but that, in most cases, he has refused. Only in cases where a G. I. has known an Austrian girl for a long time or when he has gone back to the United States

HORSE PULLING AT STATE FAIR

Popular Event Will Be
Held Saturday,
August 31

The Upper Peninsula horse pulling contest will be conducted on Saturday, August 31 at the Upper Peninsula State Fair, it has been announced by the state fair board. John MacInnis, Sault Ste. Marie, is supervisor of the contest, with Grey Knaus, Cornell, as superintendent. Assistants are Lyle Abel, Sault Ste. Marie and Henry Wylie, Escanaba.

The contest will be conducted in front of the grandstand at 10 a. m. and 1:00 p. m. and only Upper Peninsula teams will be eligible to compete. The contest is in two divisions, Class 1 for lightweight teams weighing under 3,000 pounds and not exceeding 16 hands (64 inches) in height, and Class 2 for heavyweight teams. The tractive dynamometer furnished by Michigan State College will be used to accurately measure the performance of the competing teams.

Separate prizes are offered in each division as follows: 1st, \$65; second, \$55; third, \$45; fourth, \$35; fifth, \$25; sixth, \$15; seventh, \$10; and eighth, \$5. The drivers of teams in either class who display the best horsemanship in handling their teams will receive cash awards of \$10 for first, \$5 for second and \$3.00 for third.

In addition to these awards, an all wool flannel shirt will be given to the winner of the light and heavyweight horsemanship contest.

In order to encourage the entry of more medium pulling teams regardless of their weight, an additional prize of \$10 will be awarded to any team pulling 80 per cent of the teams weight. The set load must be pulled the required distance of 27½ feet to qualify for this award. Owners of teams pulling 100 per cent of their

Colleagues Regret LaFollette Defeat As Loss Of Liberal

Several Democratic and Republican senators voiced disappointment and regret Wednesday over Senator Robert M. LaFollette, Jr.'s Republican Primary defeat in Wisconsin as politicians tried to appraise the balloting.

Democratic National Chairman Robert E. Hannegan said after a White House visit that LaFollette's loss clinched a senate victory in the November election for Democrat Howard McMurray.

William C. Murphy, Jr., public relations chief of the Republican National Committee, countered to reporters:

"If Mr. Hannegan believes what he says, he can get a hundred bucks of my money awfully easy." LaFollette was whipped in a tight race by Circuit Judge Joseph R. McCarthy, a veteran who carried the endorsement of the State

weight will receive a special award of \$25.

Owners of teams that establish horse pulling records also will qualify for additional prizes as follows: Upper Peninsula record, \$20; state record, as established by Michigan teams, \$30; world's record, \$50.

The present records in the lightweight class are: Upper Peninsula, 3,000 pounds, by William Kell, Wilson; state record, 3,300 pounds, by Harold Van Huse, Brownson, Michigan; world record, 3,325 pounds, by Burlist Moyer, Greensfor, Indiana.

The records in the heavyweight class are: Upper Peninsula, 3,500 pounds, by Archie Vota, Wilson, and Charles Casagrande, Crystal Falls; state record, 3,775 pounds, by Dan Arnold, Plainwell, and Fowler Brothers, Reading; world record 4,025 pounds by C. B. Keihl and Son, Bradford, Ohio.

Republican organization into Tuesday's primary.

Senator Pepper (D-Fla.) said he was grieved and that the senate and nation had "lost a great public servant." He added:

"It proves the Republicans do not want a liberal in the Republican party and there is no hope left for liberals in the party."

Senator Capper (R-Kan.) said he was "deeply disappointed, as I would like to have seen the Republicans nominate him. He was a fine senator."

The outcome of Tuesday's primaries in other states:

Vermont—for the first time in recent history a governor was denied a second term when Mortimer R. Proctor was defeated in the Republican Primary by former Colonel Ernest W. Gibson.

Ralph E. Flanders, industrialist and former president of the Boston Federal Reserve Bank won the senatorial nomination from Sterry R. Waterman, 45-year-old attorney.

Republican nomination is the equivalent of election in Vermont. South Carolina—Governor Ransome J. Williams ran third in a field of 11 in the Democratic gubernatorial nomination—which

Liquor Vendors Elect Officers

Negaunee—Mike Kelly, of Kelly's Slide, was elected president of the Upper Peninsula Association of Liquor Vendors at the closing session of the two-day conference last night.

Other officers elected were John Monville, St. Ignace, first vice president, and Charles Litzner, Moran, second vice-president.

The association unanimously adopted a new resolution submitted by the Marquette representation urging a permanent policy be established whereby the Upper

is just as good as the election in that state.

J. Strom Thurmond, former lieutenant colonel, topped the pack by a wide margin but failed to carve out a clear majority. He faces a run-off Sept. 3 with Dr. James A. McLeod, president of the State Health Association.

William Jennings Bryan Dorn, former state senator and soldier, clipped the renomination bid for Rep. Butler B. Hare.

Arkansas—Three incumbents won in the only statewide contests: Guy E. Williams as attorney general, E. L. McHaney as associate justice of the Supreme Court, and J. Vance Clayton as treasurer.

Two Boats Leave With Iron Ore; More Are Coming Today

Shipping was unaffected at Escanaba yesterday by the strike, which was called by the National Maritime Union (CIO) on the Great Lakes at 12:01 a. m. Thursday. No crews walked off the boats docked here.

The Str. C. C. Conway cleared at 7 a. m. with iron ore for Detroit and the Str. Chacornac departed at 9 a. m. with a similar cargo for South Chicago.

Dock officials of the Chicago and North Western railway said no arrivals were scheduled yesterday, but four boats are expected to dock for cargoes of ore today. One is the Str. Marquette, which came from Toledo with coal and was unloading yesterday at the Escanaba Coal and Dock company's dock. The barge, Marquette & Bessemer No. 2, which has unloading at the same dock, is awaiting the arrival of a tug.

Other ore carriers scheduled to arrive at the C&NW docks today are the Odanah, Joliet and Calumet. No cancellations had been received up to late yesterday.

The Reiss Coal company reported it had no boats scheduled for the Escanaba dock.

Salary Raises Cut Game Fund Reserve

Lansing, (AP)—Cost of living salary raises plus increased cost of materials and new programs are threatening depletion of the state game fund's reserves, conservation department officials revealed, Wednesday.

Expenditures of game funds in the current fiscal year are already \$3.6 per cent higher than the same period in pre-war 1941, while income from fishing license sales during the first seven months of 1946 have increased only 25 per cent over revenues during the same period in 1941 it was reported.

The department said expenditures so far in the fiscal year total \$2,277,381 compared with \$1,784,808 five years ago. The 1946 income from fishing licenses up to now has been \$135,000.

Faithful Porcupine Sits Up With Dead

Redding, Calif.—(AP)—This porcupine was faithful unto death. Dick Jackson, a lookout on nearby Granite Peak, found a live porcupine high above the elevation where animal life can be sustained.

Beside it was its dead mate, which apparently had wandered up the peak and starved to death.

Violet Raiche Is Married To Edw. Healterman

Speaking their wedding vows before Father LaMothe at St. Mary's church in Hermansville at an early morning ceremony on August 10, Miss Violet Marie Raiche, daughter of Mr. and Mrs. Alex Raiche of Hermansville, was united in marriage to Edward Healterman, son of Mr. and Mrs. Omer Healterman of Hermansville.

Music for the service consisted of "Ave Maria," the bride's favorite selection. The church was decorated with mixed cut flowers.

The bride approached the altar wearing the traditional long dress of white net with bodice and sleeves of lace and the net repeated in a yoke. Her illusion veil was held by a cap giving the effect of a bonnet which was decorated with orange blossoms. She carried white roses and a blue rosary, the latter a gift of the bridegroom's.

Her attendants were gowned in pastel formal dresses. Mrs. Theodore Aytte of Hermansville, the matron-of-honor, was dressed in a pale yellow marquisette. Cpl. Florence Raiche of Fort Custer, Mich., Miss Theresa Raiche, and Miss Alice Marie Raiche of Hermansville, who served as bridesmaids, appeared in similar gowns of peach, pink and blue with matching net skirts. Their matching bouquets were set in dollies. All had identical headresses.

Bridegroom's Attendants
The bridegroom's attendants were Donald and Joseph Raiche and Rodger Hull of Hermansville. For her daughter's marriage, Mrs. Raiche chose a grey flowered crepe dress highlighted by black accessories. Mrs. Healterman, the bridegroom's mother, appeared in a grey flowered crepe also and accented her costume with black accessories.

Following the ceremony, 35 guests met at the home of the bride to celebrate the marriage. Decorations for the occasion consisted of cut flowers, sweet peas and baby breath.

Later the newly-married couple left on a wedding trip through the Copper Country by automobile. Mrs. Healterman appeared in a grey dress suit with black and red accessories for her going-away outfit.

Miss Raiche graduated from Hermansville high school and took her nurse's training at Mother Cabrini hospital in Chicago. Later she served two years as an army nurse in France. Mr. Healterman, also a graduate of Hermansville high school, attended Michigan State college before serving four years as a pharmacist's mate in the navy.

They will make their home in Hermansville.

Serve a cool, flavorful jellied meat loaf on a hot summer day. It's as tempting a dish as you can serve and at the same time it brings meat into the menu. Another asset of a jellied loaf is the fact that it is made well in advance of the meal.

Carolyn Rose and Robert Bliss Wed

Baskets of gladioli decorated the First Lutheran church, Gladstone, Wednesday afternoon for the marriage of Miss Carolyn Marie Rose, daughter of Mr. and Mrs. Robert Deway Bliss, son of Mr. and Mrs. J. E. Pederson of Palo Alto, Calif. The young couple spoke their vows in a service performed by the Rev. Clifford Peterson, and the music of the ceremony was played by Mrs. Marie Olson.

The bride was attired in a suit of light gray, with tulle hat of blue. Mrs. Joseph Kozar, matron of honor, and Janet Markham and Doris Vicklund, the latter of Iron Mountain, were bridesmaids, and they also wore suits and their hats were of pink tulle.

Attending the bridegroom was Vincent Olson of Detroit, and the ushers were Grant and Harry Markham, Jr.

Following the wedding a reception lawn party was held at the home of the bride's parents, where the guests were served a buffet lunch and the tiered wedding cake centered a long table. Mrs. Deway, grandmother of the bridegroom, and Miss Dorothy Rose, poured. Leaving for a two-week trip to Dallas, Texas, former home of the bridegroom, Mr. and Mrs. Bliss will return in about two weeks to make their home in Escanaba.

Pearl Laviolette

Vacations On Luzon

Baguio, P. I.—Second Lieutenant Pearl A. Laviolette, 401 So. 11th street, Escanaba is enjoying an extended leave as the guest of the Camp John Hay furlough center despite the camp's isolation from the outside world since July 17 due to the typhoon, "Ingrid", that struck Northern Luzon with the worst storm in twenty-five years.

Camp John Hay which is situated high in the mountains near Baguio, summer capital and playground of the Philippines, was isolated when the typhoon caused mountainous landslides that covered the only road leading down to Manila.

No casualties or serious damage occurred at the army rest camp of the Philippines but damage was extensive in nearby Baguio and the death toll has already mounted to seventeen with eight others missing in the immediate area. The camp itself has an adequate food supply and recreational facilities are unhampered. Airmail as well as radio connection with Manila has been established. It is expected that the mountain road will be open by August 5 permitting furlough personnel to be returned to their units.

Second Lieut. Laviolette entered the Army May 10, 1945 from her home in Escanaba, Michigan, where her parents, Mr. and Mrs. Leo Laviolette, now reside. After training at Camp McCoy, Wis., 2nd Lt. Laviolette embarked September 4, 1945 for overseas duty in the Philippines. She is now serving with the 4th General Hospital, on Luzon.

McNABB OUSTER HEARING TODAY

Judge DesJardins Will Hear Plea Against County Board

A hearing to review the procedure of the Delta county board of supervisors which resulted in the removal of Marcus McNabb of Escanaba as a member of the county road commission will be held today at the court house in Escanaba by Judge George W. DesJardins, circuit judge of Lapeer county.

The case was transferred to Judge DesJardins for hearing at the request of Judge Frank A. Bell of Negaunee, who is ill and could not schedule the case.

The county board of supervisors removed McNabb as a road commissioner on April 30 following a three-day hearing.

It is the procedure in this hearing and the charges and procedure in general whose legality is questioned by McNabb. It is the claim of the plaintiff that none of the charges were proved at the hearing.

Prosecutor J. Clyde McGonagle will represent the county board of supervisors, who are the defendants, and Atty. Herbert J. Rush-ton is counsel for McNabb.

At the hearing Judge DesJardins is to determine "what of right ought to be done" in the proceedings brought by the county against McNabb. The county board has been advised by the prosecutor that circuit court may put the matter over for supreme court hearing if there is sufficient cause shown, but circuit court does not have authority to set aside the decision of the county board.

Big Bear and Fish Reported By Rich In Alaskan Travels

By PHIL RICH
Near Loring, Alaska—One of the largest black bear I have ever seen greeted us as we trudged into Milton. Orton's place two and a half miles from float near Loring.

The bear was looking for fish as we were, but before I could set up the movie camera he retreated into the woods.

We came to the Naha river area by mail boat. It's about 25 miles from Ketchikan and took about two and a half hours. A plane is to meet us Monday and fly us to McDonald lake. We are after rainbows and bear pictures.

The trail in was good for an Alaskan trail. It was open, wet but the worst bogs were bridged with corduroy.

A Mrs. Dassow, and her two boys, and a sanitarian and his wife were on the boat for an afternoon of fishing. He and Mrs. Dassow helped us lug our food and other items. We carried about 75 pounds each and that was enough. In the first mile, we found out how soft we were.

We decided to camp near Ortons, using the shelter provided by the Observatory—an L-shaped open air place with a roof but no floor or windows.

Mrs. Dassow, who is an associate editor of the Alaska Sportsman, took four nice fish with salmon eggs and really showed us how it was done. We got five fish and promptly had a fish supper.

No insects to bother us except "no-see-ems" which we kept off with "1010".

It was wet and about 60 degrees. We had trouble finding wood but discovered that the hemlock has a quick-burning pitch and this made it easy to start a fire even with soggy wood. Our camp is right at the falls on the Naha river in a beautiful timbered area with moss-covered hemlock and spruce. The skunk cabbage grows four feet high in places.

Rainbows and Dolly Varden trout dominate the stream. Salmon are just starting to run. We can see fish jumping the falls at all times. We are in such dense growth that we cannot see the mountains which rise from the river.

This river is on Reuillagide Island. No one can pronounce the name so they call it Revilla.

EARLE OPENS NEW BUSINESS

To Distribute Electrical Appliances In Upper Peninsula

Fred J. Earle, until last spring associated with the Delta Hardware company, has announced the establishment of the Earle Appliance Distributors Inc. with offices opening this week at 520 Stephenson avenue in the Wolford Peterson building.

The company will distribute, wholesale only, in an area including the entire Upper Peninsula and eighth counties in Northern Wisconsin. Two nationally-known lines of electric appliances will be handled exclusively in the territory by the new company. Radios, refrigerators, electric ranges, home freezers, vacuum cleaners, washing machines and other appliances will be distributed.

F. J. Earle is president of the company, and his son, F. A. Earle, is vice-president; Mrs. F. A. Earle, the wife of the son, is secretary-treasurer, and Mrs. F. J. Earle is a director.

Mr. Earle left the employment of the Delta Hardware company May 1 this year after working there 37 years, of which the last 25 years were as secretary of the company.

During the remainder of the week, work on the boiler and other mechanical equipment which was started a few days ago will be completed and all machinery will be repaired for the opening of business Monday, he said.

During Mr. Bissell's four years of military service the laundry was operated by A. J. Perrin.

Nazi Wind Tunnel Will Have Home Near Washington

Washington—Secretary of the Navy James Forrestal this morning laid the cornerstone for a new home for the supersonic Nazi wind tunnel that was moved here from the German V-2 rocket research station at Koechel, Bavaria. The building, at White Oak, Md., near here, is to be part of the Naval Ordnance Laboratory, described as one of the world's outstanding research centers.

The project that was planned in 1944 includes several small magnetic laboratories and a \$500,000 ammunition building that have already been completed on the 933-acre tract where the scientific center is located. Total cost of the project is \$15,000,000.

Six hundred Haitians fought for American independence at Savannah in 1779.

May 1 this year after working there 37 years, of which the last 25 years were as secretary of the company.

Patricia LaBonty, Dell Barbeaux Are Married Saturday

Munising—Miss Patricia LaBonty, daughter of Mrs. Eugene Courter, Bay View addition, became the bride of Dell Rueben Barbeaux of Sturgeon Bay, Wis., on Saturday, August 10.

Rev. Father Marks performed the ceremony in the rectory of the Sacred Heart church.

Mrs. Richard Barbeaux was bridesmaid and Richard Barbeaux served as best man.

The bride was dressed in a summer green suit with brown accessories and wore a corsage of pink gladioli. Her bridesmaid wore a gray suit with matching accessories and a corsage of pink gladioli. A wedding breakfast for 20 guests was served at the bride's home at 11 o'clock. Red and pink roses and gladioli decorated the table with a large wedding cake as center piece.

The couple left on a wedding trip to Canada and on their return will reside temporarily in Munising. Both the bride and bridegroom attended the Munising schools. He is a World War II veteran, discharged after 3½ years military service.

To Pick Alger's Queen On Friday

Munising—Naming of Alger county and Munising queen will in all probability be at a meeting of the Chamber of Commerce directors on Friday evening if it was found that the directors meeting planned for Thursday evening would have to be postponed. CEDAR STREET SITE APPROVED

GI Families Will Get Eight Separate Units Here

Munising—The Munising veteran's housing project looks very favorable. William Dore, city clerk, was told by the Cleveland office, Federal Public Housing administration, in a long distance phone call.

The project site will be the area east of Cedar Street, between Munising avenue and Superior avenue, it was announced. Eight two family units, to accommodate 16 families are to be constructed on this plot. The city will lease almost the whole frontage facing east Cedar street between Munising and Superior avenues for a depth of about 200 feet.

The Westward school site was disapproved because the large housing units are not available and the area isn't large enough to contain the separate units.

The Cleveland office said everything was in order for the Munising project and asked for just a few informative items to make changes on the plans submitted by the city engineer.

It is assumed that the project will probably be viewed by the contractors about the first part of September when they make their swing into this territory arranging for other city's federal housing construction work.

HUFFS REUNITED AT KENT CITY—Meeting together for the first time 10 children of the late Mr. and Mrs. Paul Huff, former Michigan farmers, were reunited Friday at Kent City's Royal hotel, operated by Royal H. Huff.

They are, standing, left to right: Royal, 61; Walter, 53; Fred, 65; Arthur, 57, and Edward Huff, 67. Seated: George Huff, 71; Mrs. Ada Kennedy, 75; Charles Huff, 60; Mrs. Florence Post, 76, and Minnie Huff, 78. Ed Huff is a former Rock postmaster.

Huff Family United First Time At Kent City Reunion

Kent City—Meeting together for the first time, 10 brothers and sisters of the Huff family whose ages total 736 years and who come from Kent City, Canada and seven different states, held their first reunion Friday at Kent City's Royal hotel operated by Royal H. Huff for 17 years.

Some Left Home Early

Only one of the living children of the late Mr. and Mrs. Paul Huff, former Michigan farmers, was not present. He is James Huff, 73 of Spokane, Wash., unable to attend because of illness. The couple's only other child died in infancy.

Because older children had left home before some of the younger ones were born, the brothers and sisters, five of whom are more than 70 years old, had few opportunities to see each other.

Before the reunion Walter Huff, 53, of St. Petersburg, Fla., had not seen his sister, Florence Post, 76, of Glen Alda, Ont., in 30 years.

Ed Huff, 67, of Rapid River and Fred Huff, 65 of Chester, Calif., had not seen Florence in 57 years.

Oldest Is 78

Oldest of the family group is Minnie Huff, 78, of Orange Beach, Ala. Besides Minnie, Walter, Florence, Ed and Fred, other brothers and sisters attending included Mrs. Ada Kennedy, 75, of Hammond, Ind.; George of St. Petersburg, Fla.; Charles, 60, of St. Paul,

Minn.; Arthur 57, of St. Petersburg and Royal H. Huff of Kent City.

Members of the group had traveled a total of 7,200 miles to attend the gathering. They have a total of 30 children.

Their parents moved to Bay City from Canada in 1889 and shortly after moved to Hersey. They later lived in Foley, Ala., until their deaths in the 1920's.

CHANGES PLEA IN DEER CASE

**Carl Nyberg Admits Law
Violation And Is
Fined \$75**

Carl Nyberg of Stonington appeared before Justice of the Peace O. C. Estenson yesterday afternoon and pleaded guilty to a charge of illegally killing a deer and he was sentenced to pay a fine of \$75 and costs of prosecution.

Nyberg had denied his guilt upon arraignment and had demanded trial which was set for yesterday.

Nyberg was arrested August 5 when search of his premises revealed a portion of a deer carcass hanging in a well. Also arrested were his son, Carl, and a son-in-law, Gunnar Pearson. The charge against Carl was dismissed. Pearson pleaded guilty and paid a fine of \$75 and costs.

Pearson also made a signed statement before officers in which he admitted the three had gone out in a boat at Martins Bay, killed the deer, towed it to shore and then carted it in a wagon to the Nyberg farm where Nyberg butchered the carcass.

Henry Fougais, Detroit, son-in-law of Mrs. Frank J. Belongie, city, was the victim of armed hold-up men recently at a tavern which he operates in Detroit. Fougais had just returned from a visit to Gladstone when the holdup occurred.

The following account of the incident appeared in a Detroit paper: "Two armed bandits who robbed a bar at 12434 East Jefferson of \$6,800 escaped with their loot only a few moments before the arrival of police, called by the day bartender."

gonquin, the bar's owner, said the two had stayed in the bar drinking until closing time. They then produced guns, forced him and the porter, George Mains, 62, of 744 Continental, into the back room and made them lie on the floor. "Sweeping the money from the cash register and open safe, they fled, Fougais said."

Stonington To Have Religious Service

Religious services will be conducted tonight at Bethel Lutheran church in Stonington by the student pastor of Bethany Lutheran church, Escanaba. Lunch will be served afterward. The Ladies' Aid and Luther League are in charge.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent urination, passing water with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

No Game, Trenary Unable To Travel

Trenary was unable to come to Gladstone for a scheduled game with the Redskins on V-J Day and as a result there was no ball game here Wednesday evening as had been planned. The game had originally been scheduled for last Sunday.

NIGHTCAP WON BY CUBS, 3-2

Reds Take First Game, 9 To 3, Pound Three Chicago Pitchers

Chicago, Aug. 15, (AP)—The Cincinnati Reds ended a nine game losing streak by beating the Chicago Cubs, 9-3, in the first game of a doubleheader here today and then started another by dropping the second, 3-2.

Paced by Grady Hatton, freshman third baseman, the Reds pounded out 13 hits in the opener off three Chicago pitchers. Hatton had four hits, two doubles, a single and his No. 13 home run, in leading the assault on starter Paul Erickson and two successors, Emil Kusch and Vern Olsen.

All three of the Cub runs were the result of homers by Bill Nicholson, Marv Rickert and Peanuts Lowrey.

Although out hit, 11-5, the Cubs used a three-run third to give Hank Wyse all the support he needed to gain his No. 12 pitching triumph in the second game. Phil Cavarretta's triple accounted for two runs and Peanuts Lowrey's single drove across the third.

Ben Hogan Hotter Than Ever For Crack At Byron Nelson's PGA Crown At Portland

By NED BROWN NEA Staff Correspondent Portland Ore., (NEA)—Whether Ben Hogan, hot as a smoking pistol, fresh from victory in the Canadian PGA with 281, can wrest the United States PGA title from Byron Nelson is the burning question, here for the 23rd renewal of the fixture over Portland Golf Club course, Aug. 19 to 25.

Although he has won oodles of rich tournaments the slim star from Hershey, Pa., has won only one other major title, the Western Open.

Following two days of 36-hole qualifying rounds, 64 survivors tee off at match play Wednesday, Aug. 21 in the first two rounds at 18 holes. From then until Sunday, play continues at 36 holes to decide the winner.

Long Jim Barnes was winner of the first tournament played at Siwanoy, N. Y., in 1916. Colorful Walter Hagen copped the title five different times, more than any other golfer. Gene Sarazen was next with three. Gene was only 20, youngest of all victors, when he took his first crown in 1922.

The Squire of Brookfield also won the U. S. Open that year, and is the only player to date to accomplish that feat.

Byron Nelson won his second PGA championship by defeating Sammy Byrd in the final round at Dayton, O., last July, when the net proceeds of \$51,500 were turned over to the local Army hospital for rehabilitation.

Sam Snead's brilliant play in winning his first national title was the highlight of the 1942 tourney when he beat Sgt. Jim Turnesa, 2 and 1. Turnesa had eliminated Harold McSpaden, Ben Hogan and Byron Nelson on his way to the final.

The longest match in the history of the PGA tournament was between Hagen and the late Johnny Golden in 1932, Golden winning on the 43rd hole.

Paul Runyan traveled the shortest distance to grab the 1938 crown at Shawnee in defeating Sam Snead, eight up and seven to go.

Harold McSpaden holds the record for extra hole matches in one tournament, with three sudden death engagements in 1937 at Pittsburgh. In the first two he downed Bunny Torpey of Kansas City after two extra holes in the second round and eliminated Henry Picard in the fourth in 39 holes. Then Jug lost to Denny Shute in a 37-hole final.

Sarazen defeated Picard 1 up, in 1940. Picard was three down with three birdies, only to have Gene Halve the last hole with an iron shot only 18 inches from the pin.

Lloyd Mangrum, present U. S. Open champion, has a chance to tie Sarazen's double of 1922. All Lloyd has to do is add this year's fixture to his Open crown.

With Hogan at steam heat, the odds are again Mangrum accomplishing that feat.

Junior Baseball

BEAT WELLS SLUGGERS The S. M. Johnsons defeated the Wells Sluggers, 3 to 3, in a softball game at the Webster playground yesterday afternoon.

Byron Nelson, upper left, defending PGA champion; upper right, Long Jim Barnes, winner of first tourney in 1916; lower left, Lloyd Mangrum, 1946 Open champion; lower right, Gene Sarazen, youngest winner at 20 in 1922. Walter Hagen, center who copped title most times.

NOTED BREEDER OF HORSES DIES

Col. Bradley Stricken At His Idle Hour Farm Near Lexington

Lexington, Ky., Aug. 15, (AP)—The colorful career of 86-year-old Col. Edward Riley Bradley, sportsman and philanthropist, ended in death early today at his nearby Idle Hour Farm.

Bradley, widely known as an owner and breeder of outstanding thoroughbred horses, died as the result of a heart attack. He had been in ill health for several years and underwent a major surgical operation here a few weeks ago.

Close associates, members of his family and his personal physician, Dr. Fred W. Rankin, were at Bradley's bedside when he died. He remained conscious until death.

Funeral services were set tentatively for next Monday morning in Lexington.

Although Bradley was more widely known for his activities as an owner and breeder of thoroughbred horses, he had given away thousands of dollars to needy individuals and welfare institutions of Kentucky and other states.

Bradley was the only man to own four winners of the Kentucky Derby and he recently expressed the hope in a letter to Col. Matt Winn, president of Churchill Downs at Louisville, that he would win his fifth derby next May. Bradley's derby winners were Be-

have Yourself in 1921. Bubbling Over in 1926, Burgoon King in 1932 and Broker's Tip in 1933.

His "B line"—all names of Bradley horses began with B—won many other races in tracks over the country in the last 30-odd years.

Bradley was a native of Johnstown, Pa., but left home as a young man and his activities as a real estate operator, gambler, cowboy, gold miner, Indian scout and businessman took him into many sections of the west and south.

Finale With Giants Easy For Dodgers

Brooklyn, N. Y., Aug. 15 (AP)—Brooklyn got a three-hit pitching job from Kirby Higbe today but Manager Leo Durocher had to relieve him with Art Herring during an attack of wildness in the ninth inning of a 7-1 victory over the New York Giants.

Climbing on Dave Koslo for four runs in the third inning and knocking him out of the box in the fourth, the Dodgers had little trouble sweeping the finale of their four-game series, witnessed by over 106,337 fans.

Catcher Bruce Edwards tied a major league record for assists with three in the fourth inning, two on rollers in front of the plate and one on a dropped third strike. The last time it was done was by Bill Dickey of the New York Yankees in 1929.

BENGALS BLANK WHITE SOX, 3-0

Homers Help Newhouser Get Fifth Shutout And Victory No. 21

Detroit, Aug. 15 (AP)—Two home runs by shortstop Eddie Lake and another by center fielder Walter (Hoot) Evers enabled Hal Newhouser to carve out his fifth shutout and 21st pitching victory of the season today as the Detroit Tigers blanked the Chicago White Sox 3 to 0.

Newhouser's four-hit pitching exactly reversed the tables on lefty Ed Lopat of the Chisox, who hurled a four-hitter in handing Hal his fifth defeat, 3 to 0, last Sunday in Chicago.

The Tigers, hitting safely in each of the first seven innings, collected nine blows off Lopat in cracking a Chicago winning streak at four games.

A crowd of 13,302 fans turned out despite threatening weather and the last four innings were played in a misty rain.

Only three men got as far as second base off Newhouser and nobody got any farther as the Tiger southpaw faced only 32 batters.

Bobby Kennedy doubled in the second after two were out and Newhouser hauled down Dario Lodigiani's liner for the final out to break up Chicago's best scoring chance.

Cass Michaels walked and stole second after two were out in the fifth but died there as Lopat struck out.

Joe Kuhel singled in the sixth and went to second on an infield out but the Sox couldn't get him any farther.

Newhouser walked two men and struck out nine to run his season streak total to 188.

Lake's first home came in the third inning. Evers lifted his first major league four-bagger over the left field screen in the fifth and Lake connected for his seventh circuit swat of the year in the seventh.

Three times the Tigers had men on first and second but couldn't push them around.

The victory was Detroit's seventh in eight games with Chicago here this season.

SENATORS DROP TWO TO YANKS

Twin Bill Brings 6-1 And 7-2 Victories For New Yorkers

New York, Aug. 15 (AP)—The New York Yankees took both ends of a twin bill from the Washington Senators today before 27,784 fans, winning the opener, 6-1 and the nightcap, 7-2.

Bill Wight and Joe Page set the Nats down with five hits in the first contest while Randy Gumpert limited the Senators to six blows in gaining his eighth straight triumph in the finale. The double win reduced the American league leading Boston Red Sox's margin to 12 games over the runner-up Yankees.

Charley Keller started the deciding first game rally by belting his 21st homer of the season.

Washington tallied both of its runs in the nightcap in the second frame to take an early 2-0 lead but New York tied the count in the fourth on Keller's two-run home.

Braves And Phillies Split Double Header

Boston, Aug. 15, (AP)—After dropping the first game, 15-11, after a stirring up-hill battle, the Boston Braves today split a doubleheader with the Phillies by taking the nightcap, 3-1, behind veteran Bill Lee's seven-hit pitching.

The Tribesmen were stunned at the outset when Jim Tabor belted out a "grand slam" homer off starter Ed Wright, the first of the seven Boston pitchers to work in the opener. Thanks to a seven-run blasting in the fifth, the Phillies appeared to have the game wrapped up with a 12-2 lead. But the Tribesmen battled gamely and scored three runs in their side of the fifth and six in the seventh inning.

After the respite, the Braves bunched four of the nine hits against Ken Raffensberger in the first inning to clinch the afterpiece. Lee did not yield a run to the Phillies until the ninth.

Chapman Hits Three Homers And Single: Athletics Win, 3-5

Philadelphia, Aug. 15 (AP)—Sam Chapman hit three home runs and a single and drove in four runs as the Philadelphia Athletics defeated the Boston Red Sox, 5 to 3, today.

Chapman hit his first home run—his 13th of the year—with none on in the second to give the A's a 1-0 lead. He hit his second with one on in the fourth to tie the count at 3-3 and then in the eighth banged his third with none on.

Pete Suder's home run in the eighth—his second of the year—was the wallop that broke the tie.

Two Favorites And Two Dark Horses In Women's Golf Race

BY LARRY SMITH Cleveland, Aug. 15 (AP)—Two favorites and a pair of darkhorses moved into semi-finals of the Women's Western Amateur golf championship tournament at the Country Club today.

Louise Suggs, poker-faced swinger from Lithia Springs, Ga., who is angling for her seventh 1946 crown, experienced little more than a workout in disposing of Rosann Shaffer of Toledo, O., 6 and 5.

Another favorite and the one who drew the biggest gallery, long-hitting Mrs. Mildred (Babe) Didrikson Zaharias of Denver, romped to a 5 and 4 triumph over Mrs. Eddie Bush of Detroit.

Nineteen-year-old Mary McMillin of Green Bay, Wis., who scored the tournament's major upset in eliminating defending champion Phyllis Otto, won over Carol Diringer of Tiffin, O., 4 and 2.

Jean Hopkins, Cleveland, city champion, notched a 4 and 2 win over Eileen Stubb of Atlanta, Ga. Miss Suggs will tangle with Miss Hopkins in one of tomorrow's semi-finals, while Miss McMillin will try to turn in a giant-killer act against Mrs. Zaharias.

Boston Gets Ready For Series Tickets

Boston, Aug. 15 (AP)—The Boston Red Sox, bombarded by applications for World Series tickets, announced today they would make known a policy "within a day or two" and that for the first time in the history of the classic tickets may be bought for a single game.

Eddie Collins, vice-president of the Boston club, said that no applications for tickets would be accepted, however, until the Red Sox had definitely clinched the American League pennant.

Robinson Tune-Up Fight Is Knockout

Albany, N. Y., Aug. 15 (AP)—Ray (Sugar) Robinson tuned up for his coming welterweight championship fight with Marty Servo by knocking out Vinnie Vines of Schenectady in the sixth round of a scheduled ten-round bout at Hawkins Stadium tonight before 6,500.

The New York negro sent Vines to the canvas with a left uppercut and a right to the jaw in 2:46 of the sixth. Vines took the count from Referee Eddie Joseph in a sitting position.

Robinson weighed 151½ and Vines 158½.

LIONS TAKE LEAGUE LEAD

Gladstone Wins, 9-3, On Wednesday From Munising Coals

Munising—Garnering 9 runs on 15 hits and an assortment of errors, the Gladstone Lions defeated the Munising Coals, 9-3, here Wednesday afternoon. The victory gave the Lions the top spot in the Tri-County League, previously held by the Coals.

It was the first defeat for the Munising aggregation.

Olson, Gladstone hurler, allowed the Coals but four scattered hits and helped win the game by getting four hits in 5 trips to the plate. They included a single, two doubles and a triple.

Gladstone took the lead in the opening inning.

Hunting And Fishing

By Sid Gordon

YOU JUST CAN'T BEAT A BUCKTAIL

I hadn't seen Pete for 14 years but when I was up at the Soo, I took Black Nat, from Superior, into his shop to meet him. I wanted Black Nat to see the original bucktail fly which Emerson Hough had tied and given Pete, after they had come off the river many years ago.

Emerson Hough, a grand old sportsman and one of our best writers of the outdoors, has been gone for many years but his original fly, the Emerson Hough will live as long as men fish. Just a rough body of deer hair and a streamer of the hair from a buck's tail, makes the fly.

Pete Viganon can no longer fish the river but he can still remember hundreds of the fish he took there. "You just can't beat a bucktail," he told Black Nat as we said goodbye. I went away from there pondering those words, and how true they are!

A bucktail on a muskie hook has caught more muskies than you can shake a stick at. Thousands are in use today on good muskie waters. Walleyes and northern steelheads and rainbows brown trout and brook trout large and small mouth bass and crappies. Show me one of those fish which will not hit a bucktail fly or lure.

The hollow hair, the winter hair, of the buck is a blessing to the fisherman. We tie them of the pure white hair. We mix the white and the dark together and tie them on the hook. We make them on a layer of white and then a layer of dark to black.

We make the bodies of the hair

IRON MT. GRID FUTURE BRIGHT

Coach LaJeunesse Will Have 16 Lettermen Returning

Iron Mountain—Blessed by the return of 16 lettermen, including seven regulars from the 1945 team and Don Ludwig, all-U.P. center of two seasons ago, plus 17 candidates with experience on the reserve crew and a capable staff of coaching assistants, Coach Omer LaJeunesse will open drills for his 1946 Iron Mountain high school football squad at 10 Monday morning, Aug. 19.

Heading the list of candidates is Don "Pidge" Ludwig, all-U.P. center of two years ago who was discharged this summer from the Navy. Regulars back from last season are: Bill Bertrand, fullback; Earle Hosking, halfback; Tom Jones, tackle and center; Ted Lofstrom, end; Roland Mariucci, quarterback; Geno Maracini, guard, and Bob Rubbo, guard. Other lettermen are: Bill Constantini, end; Ted DuFresne, tackle; Dave Freeman, quarterback; Paul Gingras, halfback; Charles Henry, tackle; Russ Lundin, tackle; Henry Pozza, guard, and Don Yuhasey, fullback.

Outstanding reserves from last year's team:

Al Miller, tackle; Joe Groleau, back; Bob Rushford, back; Jack Jacobs, back; John Gauthier, center; Paul Formolo, end; Bert Pozza, guard; James Berg, end; Dave Dvorsky, back; Tom Gronlund, end; Dick DeNell, back; Nick Pietrantoni, back; Jack Winters, tackle; Frank Segner, guard, and Bill Flom, end.

In addition there are several candidates from the junior high squad of last season who will report for the varsity.

Following is the Mountaineer schedule:

Sept. 14—Ishpeming, there, day.

Sept. 21—Ningara, here, day.

Sept. 27—Stambaugh, there, night.

Oct. 5—Norway, here, day.

Oct. 12—Menominee, here, day.

Oct. 19—Escanaba, there, day.

Oct. 25—Iron River, there, night.

Nov. 1—Kingsford, there, night.

The reserves will play a home and home series with Kingsford and Florence, one game at Escanaba and will play Menominee here.

The volume of air mail between the United States and Peru has increased in 15 years to 181 times what it first was.

of the buck's tail as well as using it for whisks. No expert ever sneers at bucktail and surely no beginner should overlook a bucktail fly or bucktail trimmed lure.

From the very largest gang hooks, heavily covered with bucktail for a muskie lure, down to the very smallest trout flies of bucktail, I have taken fish. The hollow hair closes in fast water but moves, "breathes" just the second it is still. Constantly opening closing, no matter how you work it, it seems to live and breathe.

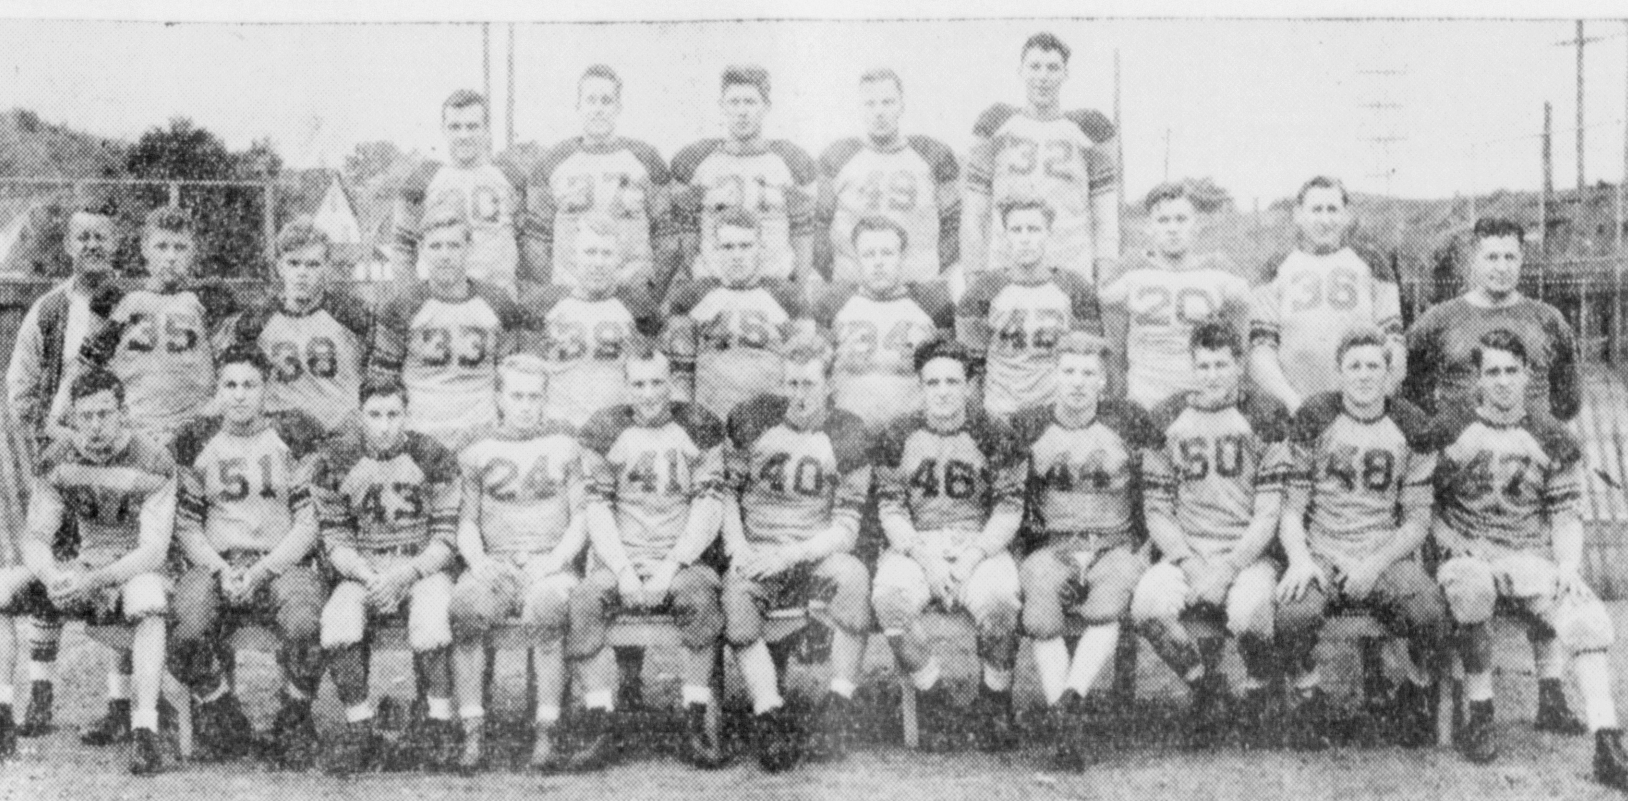

What fish will resist a living moving mouthful when it is in the feed. Some believe that the fish take it for a minnow, other claim that it represents the large mayfly nymph, others the dragon fly, others the beetle. No matter what they may take it for, "You just can't beat a bucktail," as my old friend Pete avows.

The Sports Scoreboard

By Harry Grayson

New York—(NEA)—Someone asked Joe Cronin what change there was in Ted Williams.

"Who wants to change him?" roared the manager of the Red Sox.

Nevertheless there is a tremendous difference between the pre- and post-war Theodore Samuel Williams.

Three years of Marine Corps aviation transformed the greatest hitter of the day from an irresponsible boy into a level-headed man. In training, he broke the gunnery record, qualified perfectly with eight cuts in as many passes at landing on a carrier. He did a bit of instructing, which gave him poise.

"I must have been a daffy kid," laughs the matured, mellowed Williams, who says he will be 28 this month, although the records show he was born Oct. 30, 1918. He recalls his wanting to be a fireman in 1940, when he was the finest young hitter in baseball. "Well, doesn't every kid?" he grins. "My uncle was a fireman, you know."

Another change in Williams is that he has picked up 14 pounds, transforming him from a lurching light-heavyweight to a pounding heavyweight with 192 solid pounds spread over his towering six-foot three-inch frame.

Williams is writing pieces appearing on the first page of a daily in baseball-nuts Boston, a sure sign that he has attained the

him as a coach."

While the Sox as a group don't particularly care about the Brooklyn front office and management and would prefer to tackle the Cardinals or Cubs in the World Series, Williams would happily settle for the Dodgers.

Timber, which is the Kid's newest of many nicknames, points out that there would be no day off in a repetition of the series of 30 years ago. There would be the short hop between bathtubs, etc. He has never seen Ebbets Field, but "it must be a lovely place," the latter, of course, in connection with the 297-foot right field foul line.

Williams is not so certain he is benefitted by a short right field wall, however, for Fenway Park is the toughest for him and he has manufactured most of his 31 home runs there.

"Bases on balls don't hurt or help a batting average," asserts the Bat, "but when the right field fence or stands is on the short side I get nothing to hit. I don't seem to look half as big and bad when the distance is 400 feet or more. Pitchers take a chance and I get something I can put the wood on."

Williams has no intention of bunting, dragging or deliberately trying to hit to left field against tricky defenses.

"I hit .406 in 1941 without having to do this. The fans come out to see me hit the ball a long way. In order to do this I have to concentrate on meeting the ball squarely and hit straight away, letting the hits fall where they may. In this way, I'll spray a ball into left field once in awhile. Faculty

Sixteen new teachers have joined the staff of the Manistique public schools and only one position, that of vocal music, remains unfilled, A. F. Hall, superintendent of schools, announced yesterday.

Eleven of the new instructors will be on the faculty of the Manistique high school, two will teach at the Central school, one at Lakeside and three at Lincoln.

Mrs. Clifford Cool, a substitute, will continue to teach the first and second grades at Lakeside until a new instructor can be employed to finish the year.

High School Teachers

New high school instructors are: Mary Van Hoessen of Evanston, Ill., a graduate of Northwestern university who will teach English; Carl Hansen, a graduate of State Teachers college, Valley City, N. D., will teach English and commercial subjects; Mrs. G. Hansen, McKinock, S. D., a graduate of Northern Michigan College of Education, Marquette, will also be an English instructor; Helvi Walkonen, Marquette, also a graduate of the teachers' college there, will teach English and speech; Anna Volden, LaCrosse, Wis., who received her degree at State Teachers college, LaCrosse, will be physical education instructor.

LaVerne Trevarrow, new home economics instructor, is a graduate of the teachers' college at Marquette; Jerome (Jerry) Thompson, Cameron, Wis., is a graduate of the University of Wisconsin, and will be head football coach and physical education instructor; Gertrude VanStraten, Baraga, Mich., will teach history. She is also a graduate of the teachers' college at Marquette; Mary Rankin, LaCrosse, Wis., biology instructor, received her degree from Carroll college, Waukesha, Wis.; Theodore Corombos of Marquette received his education at the teachers' college there and will be manual training instructor; Miss V. LeMaster of Lowmansville, Ky., a graduate of Eastern Kentucky Teachers' college will teach French and mathematics.

At Central School

The two new teachers at Central school are D. Dissenger, a graduate of NSTC, DeKalb, Ill., who will teach shop and mathematics; Hazel Antilla of Marquette, Marquette teachers' college graduate, will be an instructor of English and civics.

At Lincoln elementary school the new instructors are Mrs. Lillian Rowell, a graduate of Michigan State Teachers' college, who will teach the third grade; Mrs. John Nessman, a graduate of the same school, will be a second grade teacher; Mrs. V. Guidebeck, a substitute teacher last year, will continue as first and second grade teacher.

At Riverside kindergarten pupils will be transferred to the Lincoln school, the bus picking up the children at Riverside at 12:45 and returning at 3:10 p. m.

Riverside kindergarten pupils will attend the afternoon session of the Lincoln kindergarten; the Lakeside kindergarten will be held in the morning and the Central kindergarten in the afternoon.

A child must be five years of age or before September 2 to be eligible for regular attendance in the kindergarten. Children who have attained the age of four and a half years may attend kindergarten but will not be eligible for promotion to the first grade the following year. Children's birth certificates must be presented before they can be enrolled.

Text books are free throughout the school system but students entering junior high are required to make a one dollar deposit; a \$2 deposit is required from new senior high students. Former students pay only the difference between the balance in their text books accounts and the original amount required.

Upon leaving school students may receive a full refund on the amount of the book deposit if the texts are in good condition. If books are lost, damaged badly or beyond normal repair the student's account is charged for the loss.

Natural Science
Subject Of Color
Movie Here Sunday

Vivid full-color scenes from astronomy and natural science are featured in "The God of Creation," sound motion picture to be shown at 7:30 o'clock, Sunday evening at the Bethel Baptist church.

Produced in the west coast laboratory of Moody Bible Institute by Irvin A. Moon, Sc. D., "The God of Creation" is the second in a series of evangelistic films, according to the Rev. Harold Marston, Bethel Baptist pastor. The first film by Dr. Moon, "They Live Forever," had a large showing in all parts of the country.

In the opening scene of "The God of Creation" the audience takes a trip to the stars by means of solar photographs taken through the giant 100-inch telescope of Mt. Wilson Observatory in southern California, and views complex gyrations of our own solar system.

Lapse-time photography is utilized to demonstrate the beauties of natural science. The illusion of flower buds developing into full-blown blossoms in a few seconds is created through this time-compressing photo technique. The metamorphosis of a caterpillar through the various stages from worm to butterfly, and pollination of flowers are seen on the screen in full color.

Believed to be the first of their kind are the natural-color pictures of photosynthesis, the mysterious food - manufacturing process resulting from the action of sunlight on green leaves.

Through photomicrography the audience peers into the microscopic world of a drop of water and observes the complexity of tiny organisms, enlarged more than a million times.

The general public is invited to attend the showing here.

VETS ASKED
TO COOPERATEForms For Furlough Pay
Will Be Available
In September

The Schoolcraft county Council of Veterans' Affairs is being appraised daily of all new developments of the Armed Forces Leave Act of 1946, better known as the Terminal leave bill. Leonard N. Mulhaupt, veterans' counselor here, said forms and instructions to be used in making application for payment will be distributed through the local postoffice. However, the forms are not expected to arrive here before Sept. 15.

Veterans of all branches including women who served in the Wacs, Waves, Spars or Marines are eligible for payment providing furlough or leave time was due them at the time of discharge. Members of the W-A-A-C are not eligible as that organization was only an auxiliary service and was not a component of the Army of the United States.

Dependents of persons who died while in service are not entitled to the terminal leave pay because of the six months' death gratuity pay. The law applies only to those veterans who have been honorably discharged from the service and are still living or to the survivors of veterans who have died since discharge. Special forms for these dependents will also be available at the postoffice.

Only the original discharge paper will be acceptable when application for the terminal leave pay is made. Veterans who have lost their discharge paper are asked to contact the local counselor, who will assist them in applying for a certificate in lieu of lost or destroyed discharge papers.

Arrangements are now being made with various federal and county organizations in the community to assist the veterans when

Wednesday the women will have supper at the club.

Football Lettermen
Report On Saturday
To Coach Thompson

Returning Manistique high school football lettermen will report Saturday afternoon to Coach Jerome (Jerry) Thompson at the old gym between 2 and 4 p. m.

Coach Thompson, University of Wisconsin football, basketball and track man who is beginning his first assignment here, will arrive in Manistique this Saturday and will meet last year's returning lettermen then. He will issue suits on Monday morning and the first practice session will be held Monday afternoon.

forms become available. Volunteers are also being recruited to handle the enormous volume of administrative details. Therefore, the local counselor requests that veterans withhold their inquiries regarding this bill until such time as forms become available so that normal office functions can be handled. Further details will be provided through local newspapers as soon as arrangements are completed.

Brothers, Sisters
Enjoy Reunion Here
At E. T. King Home

Two sisters and three brothers of Mrs. E. T. King, 628 Manistique avenue, with their families, and a number of other relatives including the son and daughter of Mr. and Mrs. King with their families enjoyed a family reunion this week at the King home.

Mrs. King and one of her sisters, Mrs. Frank Useton of Phoenix, Ariz., had not seen each other in 32 years. Other members of the family present for the gathering included Mr. and Mrs. W. W. McGinnis of Kearney, Mo. Mrs. McGinnis is a sister of Mrs. King. William C. Jackson and son, Jerry, of Poplar Bluff, Mo., Dr. W. R. Jackson of Milwaukee, Mr. and Mrs. C. C. Jackson and son, Kenneth, of Detroit. The three Jacksons are Mrs. King's brothers, Mr. and Mrs. Ralph Mortimer and son, John, and daughter, Carol, of Dallas Center, Ia. Mrs. Mortimer is a niece of Mrs. King. Mr. and Mrs. Jack King and sons, Bobby and Jimmy of Escanaba, and Mrs. Hazel Roussin and daughter, Alice June, and sons, Ray and Jack of Escanaba. Jack King and Mrs. Roussin are the son and daughter of Mr. and Mrs. King.

children with Mrs. Oselton and Dr. Jackson left Wednesday for Detroit to visit a few days with C. C. Jackson and family and most of the party will later visit at Elgin, Ill., with Mr. and Mrs. R. B. Edgerton. Mrs. Edgerton is the former Alice King.

PLAN PURCHASE OF NEW STOKER

Use At Steam Plant May Reduce Cinder And Soot Nuisance

Escanaba city council in session last night authorized City Manager A. V. Aronson to purchase and install a new coal stoker for the large boiler in the city steam plant at a cost estimated at \$7,000.

Following installation of a new stoker on the smaller boiler at the steam plant it was discovered that the soot and cinder nuisance has practically been eliminated from that boiler, the city manager reported to the council. It was his recommendation that the large boiler also be supplied with a new stoker before the winter heating load is resumed at the steam plant, so that further reduction in the dirt from the steam plant boilers will be attained.

The new stoker can be shipped almost at once and can be installed within a period of about six weeks, the manager advised the council. He added that the cost of the stoker would be \$6,471 and the installation cost about \$500. During the heavy firing periods in winter, the new stoker would save about \$168 a month in fuel costs through more efficient firing.

Other business before the council included:

Approval of a building permit requested by Erling Arntzen for construction of a storage garage 40 by 50 feet at the residence he

is building. There being no objectors, approved a resolution providing for sewer assessments for Blocks 25 and 43, I. Stephenson plat.

Agreed to assign a lease of city lands at Sand Point on which Radio Station WDBC is located to the Escanaba Daily Press company in event purchase of the station by the latter is approved by the Federal Communications Commission.

Gave first reading to a taxicab ordinance for the city, and left unchanged a list of taxi fares prepared by the cab operators and approved by the council last week.

Stanley Sowinski Dies At Schaffer

Stanley Sowinski, 79, died at 9:05 a. m. Thursday at his home at Schaffer after a serious illness of six weeks. He was born May 3, 1867, in Poland, and had lived at Schaffer three years. Surviving are his daughter, Mrs. Frank Moraski, Schaffer; a son Joseph Sowinski, Chicago; and six grandchildren.

The body was brought to the Boyce funeral home and will be returned to the Sowinski home at Schaffer Saturday at 7 p. m. to lie in state until the funeral Monday at 9 a. m. Services will be at Sacred Heart church, of which the deceased was a member. The Rev. Fr. Roland Dion will officiate. Burial will be in the family lot in St. Joseph cemetery at Escanaba.
